

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chung Hing Leung
DOCKET NO.: 18-25148.001-R-1
PARCEL NO.: 01-27-407-013-0000

The parties of record before the Property Tax Appeal Board are Chung Hing Leung, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,380
IMPR.: \$69,158
TOTAL: \$79,538

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 5,403 square feet of living area. The dwelling is approximately 26 years old. Features of the home include an unfinished full basement, central air conditioning, two fireplaces and a 3-car garage. The property has a 59,316 square foot site and is located in South Barrington, Barrington Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables located in the same neighborhood code as the subject. The comparables are improved with class 2-09 dwellings of masonry exterior construction ranging in size from 5,090 to 5,620 square feet of living area. The comparables range in age from 27 to 41 years old. The

comparables each have a full basement, three of which have finished area. Each comparable has central air conditioning, three or four fireplaces and a 3-car or a 4-car garage. The comparables have improvement assessments ranging from \$43,775 to \$61,351 or from \$7.88 to \$11.78 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$56,029 or \$10.37 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$79,538. The subject property has an improvement assessment of \$69,158 or \$12.80 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located in the same neighborhood code as the subject property. The comparables are improved with two-story class 2-09 dwellings of frame and masonry exterior construction ranging in size from 5,018 to 5,530 square feet of living area. The comparables range in age from 17 to 40 years old. The comparables each have a full basement, three of which have finished area. Each comparable has central air conditioning, one or two fireplaces and a 3-car or a 3.5-car garage. The comparables have improvement assessments ranging from \$80,809 to \$87,042 or from \$14.91 to \$16.18 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #1 as it appears to be an outlier based on its improvement assessment and per square foot assessment when compared to the other comparables in this record.

The Board finds the best evidence of assessment equity to be the parties' seven remaining comparables which are relatively similar to the subject property in age, dwelling size and some features. However, six of these comparables have finished basement area unlike the subject's unfinished basement. These comparables have improvement assessments ranging from \$56,659 to \$87,042 or from \$10.92 to \$16.18 per square foot of living area. The subject's improvement assessment of \$69,158 or \$12.80 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
