

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Antonio Esparza
DOCKET NO.: 18-28613.001-R-1
PARCEL NO.: 14-19-115-019-0000

The parties of record before the Property Tax Appeal Board are Antonio Esparza, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$37,398
IMPR.: \$94,812
TOTAL: \$132,210

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story, multi-family building of masonry exterior construction with 6,304 square feet of building area. The building is approximately 110 years old. Features of the building include a full unfinished basement and a three-car garage. The property has a 7,192 square foot site located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11, multi-family buildings of masonry exterior construction ranging in size from 5,882 to 7,254 square feet of building area. The buildings

range in age from 93 to 105 years old and have full unfinished basements. One comparable has central air conditioning. The comparables have improvement assessments ranging from \$85,583 to \$99,765 and either \$13.75 or \$14.55 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$90,021 or \$14.28 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$132,210. The subject property has an improvement assessment of \$94,812 or \$15.04 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11, two-story and three-story multi-family buildings of masonry exterior construction ranging in size from 6,048 to 6,573 square feet of building area. The buildings range in age from 100 to 115 years old. The comparables have a full unfinished basement. One comparable has a two-car garage. The comparables have improvement assessments ranging from \$95,051 to \$101,344 or from \$15.28 to \$16.49 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #3 due to differences in their building sizes when compared to the subject property.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 as well as the board of review comparables. These comparables are closer in building size to the subject and similar to the subject in location, exterior construction, age, foundation and some features. The comparables have improvement assessments ranging from \$93,847 to \$101,344 or from \$14.55 to \$16.49 per square foot of building area. The subject's improvement assessment of \$94,812 or \$15.04 per square foot of building area falls within the range of the most similar comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, such as lack of a garage and/or other amenities, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
