

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Maria Muhl
DOCKET NO.: 18-28650.001-R-1
PARCEL NO.: 14-29-110-036-0000

The parties of record before the Property Tax Appeal Board are Maria Muhl, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,750
IMPR.: \$64,168
TOTAL: \$82,918

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family building of frame exterior construction with 2,650 square feet of building area. The building is approximately 130 years old and has a partial basement with an apartment. The property has a 3,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 buildings of frame exterior construction ranging in size from 2,293 to 3,492 square feet of building area. The buildings range in age from 122 or 132 years old and have full basements with two comparables having apartments. One

comparable has central air conditioning. Two comparables each have a two-car garage. The comparables have improvement assessments ranging from \$43,773 to \$68,815 or from \$16.97 to \$19.71 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$49,635 or \$18.73 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$82,918. The subject property has an improvement assessment of \$64,168 or \$24.21 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11, two-story, multi-family buildings of frame exterior construction ranging in size from 2,000 to 2,453 square feet of building area. The buildings are either 125 or 130 years old and have full basements with two comparables having an apartment or finished area. One comparable has central air conditioning. One comparable has a two-car garage. The comparables have improvement assessments ranging from \$56,510 to \$61,578 or from \$23.68 to \$28.25 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #4 and the board of review comparable #1 due to their dissimilar building size when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables. These comparables are most similar to the subject in age and building size with varying degrees of similarity in features. These four comparables have improvement assessments ranging from \$19.09 to \$25.10 per square foot of building area. The subject's improvement assessment of \$24.21 per square foot of building area falls within the range of the best comparables in this record on a per-square-foot basis. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
