

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kenneth Fils
DOCKET NO.: 18-28653.001-R-1
PARCEL NO.: 14-19-307-044-0000

The parties of record before the Property Tax Appeal Board are Kenneth Fils, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$16,504
IMPR.: \$47,483
TOTAL: \$63,987

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story building of frame exterior construction with 3,000 square feet of building area. The building is 111 years old and has a slab concrete foundation. The property has a 3,174 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 buildings of frame exterior construction ranging in size from 3,305 to 4,538 square feet of building area. The buildings are either 126 or 130 years old. One comparable has a concrete slab foundation, and two comparables have a partial or a

full unfinished basement. Two comparables have a 2-car or a 3-car garage. The comparables have improvement assessments ranging from \$46,569 to \$67,634 or from \$14.09 to \$15.22 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$44,220 or \$14.74 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$63,987. The subject property has an improvement assessment of \$47,483 or \$15.83 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and the same block as the subject property. The comparables are improved with class 2-11, two-story or three-story buildings of frame or masonry exterior construction ranging in size from 2,127 to 2,937 square feet of building area. The buildings range in age from 108 to 128 years old. The comparables have full basements with one comparable having an apartment and two comparables having finished area. Each comparable has either a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$40,838 to \$54,076 or from \$18.41 to \$21.11 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. Six of the comparables have significant dissimilarities to the subject building in design, size, foundation, and/or other amenities. The Board gives more weight to the appellant's comparable #1, which is similar to the subject dwelling in size, but is older than the subject dwelling, suggesting an upward adjustment to the comparable may be necessary due to age. The Board also gives weight to the board of review comparable #2 due to its similarity to the subject in size. However, the board of review comparable #2 would require downward adjustments due to its full basement and 2-car garage. The subject has an improvement assessment of \$15.83 per-square-foot of building area which falls between the appellant's comparable #1 and the board of review comparable #2 improvement assessments of \$14.09 and \$18.41 per square foot of building area, respectively. After considering these two comparables, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
