

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Piero Soria
DOCKET NO.: 18-28672.001-R-1
PARCEL NO.: 14-19-329-011-0000

The parties of record before the Property Tax Appeal Board are Piero Soria, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,600
IMPR.: \$61,675
TOTAL: \$77,275

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,233 square feet of living area. The dwelling is approximately 125 years old. Features of the home include a full unfinished basement, central air conditioning, and a two-car garage. The property has a 3,000 square foot site located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-06 dwellings of frame exterior construction ranging in size from 2,339 to 3,000 square feet of living area. The dwellings range in age from 115 to 126

years old. The comparables have full unfinished basements, central air conditioning and a two-car garage. The comparables have improvement assessments ranging from \$63,138 to \$84,162 or from \$24.26 to \$28.05 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$59,487 or \$26.64 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$85,203. The subject property has an improvement assessment of \$69,603 or \$31.17 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-06, two-story or three-story dwellings of frame, masonry, or frame and masonry exterior construction ranging in size from 2,276 to 2,767 square feet of living area. The dwellings range in age from 92 to 115 years old. Three comparables have full finished basements, and one comparable has a crawl space foundation. Three comparables each have central air conditioning. Each comparable has a two-car garage. The comparables have improvement assessments ranging from \$76,693 to \$90,623 or from \$31.63 to \$34.30 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #3 as well as the board of review comparables due to differences in their dwellings' sizes, ages, finished basements, and/or lack of a basement when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #2 because they have full unfinished basements with varying degrees of similarities to the subject in age and dwelling size. These comparables have improvement assessments of \$63,138 and \$64,596 or \$24.26 and \$27.62 per square foot of living area. The subject's improvement assessment of \$69,603 or \$31.17 per square foot of living area falls above the two best comparables in this record. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
