

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stephen Mui
DOCKET NO.: 18-28694.001-R-1
PARCEL NO.: 14-29-304-024-0000

The parties of record before the Property Tax Appeal Board are Stephen Mui, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$20,563
IMPR.: \$65,848
TOTAL: \$86,411

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family building of frame exterior construction with 2,680 square feet of building area. The building is approximately 130 years old and has a full unfinished basement. The property has a 2,856 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 buildings of frame exterior construction ranging in size from 2,019 to 3,128 square feet of building area. The buildings are each 130 years old. The comparables have full basements with one comparable having an apartment and central air

conditioning. The comparables have improvement assessments ranging from \$46,131 to \$73,110 or from \$22.67 to \$23.37 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$61,533 or \$22.96 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$86,411. The subject property has an improvement assessment of \$65,848 or \$24.57 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11, two-story, multi-family buildings of frame exterior construction ranging in size from 1,890 to 2,584 square feet of building area. The buildings range in age from 121 to 140 years old and have full unfinished basements. Two comparables each have a two-car garage. The comparables have improvement assessments ranging from \$50,736 to \$63,799 or from \$24.69 to \$27.62 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #2 as well as the board of review comparables #1 and #4 due to their dissimilar building sizes or basement apartment when compared to the subject building.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables. These comparables are similar to the subject in age, size, and have a full unfinished basement, like the subject. These comparables have improvement assessments ranging from \$62,817 to \$73,110 or from \$23.37 to \$24.89 per square foot of building area. The subject's improvement assessment of \$65,848 or \$24.57 per square foot of building area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
