

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Bleeden
DOCKET NO.: 18-28733.001-R-1
PARCEL NO.: 14-07-303-021-0000

The parties of record before the Property Tax Appeal Board are John Bleeden, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$13,125
IMPR.: \$42,799
TOTAL: \$55,924

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,689 square feet of living area. The dwelling is 120 years old. Features of the home include a full unfinished basement and a 2-car garage. The property has a 3,125 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-03 dwellings of frame exterior construction ranging in size from 1,512 to 1,749 square feet of living area. The dwellings range in age from 107 to 125 years old and have partial or full unfinished basements. One comparable has central air

conditioning. Each comparable has a two-car garage. The comparables have improvement assessments ranging from \$34,617 to \$43,209 or from \$19.91 to \$25.34 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$40,216 or \$23.81 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$58,576. The subject property has an improvement assessment of \$45,451 or \$26.91 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-03, 1.5-story dwellings of frame exterior construction ranging in size from 1,056 to 1,353 square feet of living area. The dwellings range in age from 120 to 124 years old and have full basements with one comparable having finished area. One comparable has central air conditioning. Three comparables have either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$35,601 to \$43,464 or from \$31.14 to \$33.71 per square foot of living area. Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted a total of eight comparables for the Board's consideration. The Board gives less weight to the board of review comparables due to their significantly smaller dwelling sizes, finished basement, and/or lack of a garage when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables because they have unfinished basements with varying degrees of similarity to the subject in age, dwelling size, and features. The comparables have improvement assessments ranging from \$34,617 to \$43,209 or from \$19.91 to \$25.34 per square foot of living area. The subject's improvement assessment of \$45,451 or \$26.91 per square foot of living area falls above the range established by the best comparables in the record. Based on this record and after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
