

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Scott LoSasso
DOCKET NO.: 18-28778.001-R-1
PARCEL NO.: 14-07-421-013-0000

The parties of record before the Property Tax Appeal Board are Scott LoSasso, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$78,240
IMPR.: \$118,275
TOTAL: \$196,515

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story, mixed-use building of frame and masonry exterior construction with 11,539 square feet of building area. The building is approximately 102 years old. Features include a full finished basement and central air conditioning. The property has a 16,300 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within different neighborhood codes than the subject. The comparables are improved with class 2-12, mixed-use buildings of masonry exterior construction ranging in size from 10,143 to 11,870 square feet of building area. The buildings range in age

from 67 to 135 years old. One comparable has a partial unfinished basement, and three comparables have concrete slab foundations. Two comparables each have central air conditioning. One comparable has two fireplaces. One comparable has a 1-car garage. The comparables have improvement assessments ranging from \$75,597 to \$123,000 or from \$6.87 to \$10.36 per square foot of building area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$99,697 or \$8.64 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$196,515. The subject has an improvement assessment of \$118,275 or \$10.25 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within different neighborhood codes than the subject. The comparables are improved with three-story, class 2-11 buildings of masonry exterior construction ranging in size from 8,901 to 11,160 square feet of building area. The buildings are either 92 or 108 years old and have full unfinished basements. Each comparable has a 3.5-car or a 4-car garage. The comparables have improvement assessments ranging from \$105,122 to \$146,074 or from \$10.61 to \$16.41 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject. The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds neither party submitted comparables truly similar to the subject due to dissimilarities in their classification and/or neighborhood codes, age, building size, foundation, and/or other features. Nevertheless, these comparables have improvement assessments ranging from \$6.87 to \$16.41 per square foot of building area. The subject's improvement assessment of \$10.25 per square foot of building area falls within the range established by the comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
