

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Campbell
DOCKET NO.: 18-28779.001-R-1
PARCEL NO.: 14-28-314-023-0000

The parties of record before the Property Tax Appeal Board are Robert Campbell, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,840
IMPR.: \$76,084
TOTAL: \$91,924

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story, multi-family building of masonry exterior construction with 3,642 square feet of building area. The building is approximately 130 years old. Features of the building include a concrete slab foundation and a 1-car garage. The property has a 2,200 square foot site located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on nine equity comparables that are located within different neighborhood code than the subject property. The comparables are improved with class 2-11, multi-family buildings of masonry exterior construction ranging in size from 3,197 to 3,876 square feet of building area. The buildings

range in age from 110 to 120 years old and have partial or full basements with five comparables having finished area or an apartment. One comparable has central air conditioning. One comparable has two fireplaces. Six comparables have a garage ranging from a 1-car to a 2.5-car. The comparables have improvement assessments ranging from \$54,671 to \$66,538 or from \$17.04 to \$17.27 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$62,460 or \$17.15 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$91,924. The subject property has an improvement assessment of \$76,084 or \$20.89 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11, multi-family buildings of frame or masonry exterior construction ranging in size from 1,782 to 10,068 square feet of building area. The buildings range in age from 98 to 135 years old. One comparable has a concrete slab foundation, and three comparables each have a full basement with one comparable having an apartment. One comparable has central air conditioning. One comparable has two fireplaces. Two comparables have either a 1-car or a 3.5-car garage. The comparables have improvement assessments ranging from \$45,969 to \$303,211 or from \$23.27 to \$30.12 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds neither party submitted comparables truly similar to the subject. The comparables submitted by both parties are dissimilar to the subject in neighborhood code, age, building size, foundation, and/or other features. Nevertheless, these comparables have improvement assessments ranging from \$17.04 to \$30.12 per square foot of building area. The subject's improvement assessment of \$20.89 per square foot of building area falls within the range established by the comparables in this record. Based on this record and after considering differences between the comparables and the subject in building size and features, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
