

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Athanasopoulos
DOCKET NO.: 18-29422.001-R-1
PARCEL NO.: 20-36-101-026-0000

The parties of record before the Property Tax Appeal Board are James Athanasopoulos, the appellant, by attorney Peter D. Verros, of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,375
IMPR.: \$9,000
TOTAL: \$12,375

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 1,433 square feet of living area. The dwelling is approximately 93 years old and features an unfinished basement. The property has a 3,750 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables located in the same assessment neighborhood as the subject and within 0.90 of a mile from the subject property. The comparables are improved with class 2-03 dwellings of masonry exterior construction that range in size from 1,404 to 1,756 square feet of living area. The homes range in age from 99 to 102 years old. Each comparable has an unfinished basement and either a 1-car or a 2-car garage.

The comparables have improvement assessments ranging from \$7,140 to \$8,696 or from \$4.75 to \$5.09 per square foot of living area. Based on this evidence the appellant requested the subject's assessment be reduced to \$7,022 or \$4.90 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$12,818. The subject property has an improvement assessment of \$9,443 or \$6.54 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same assessment neighborhood and either on the same block or within 0.25 of a mile from the subject property. The comparables are improved with one-story class 2-03 dwellings of masonry exterior construction that range in size from 1,150 to 1,216 square feet of living area. The homes range in age from 71 to 97 years old. Each comparable has a basement, one with finished area and three comparables have either a 1-car or a 2-car garage. The comparables have improvement assessments that range from \$8,981 to \$9,192 or from \$7.48 to \$7.99 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 and #3 along with board of review comparables #1, #2 and #4 which differ from the subject in terms of dwelling size, finished basement and/or age.

The Board finds the best evidence of assessment equity to be the remaining three comparables which are relatively similar to the subject in location, age, design and dwelling size. Each of these properties has a garage, compared to the subject which has no garage, which suggests a downward adjustment to make these comparables more equivalent to the subject property. These comparables had improvement assessments that ranged from \$7,140 to \$9,167 or from \$4.82 to \$7.54 per square foot of living area. The subject's improvement assessment of \$9,443 or \$6.59 per square foot of living area falls above the range on an overall basis and within the range on a per square foot basis as established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, such as garage and dwelling size, the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
