**Statement of Jurisdiction**

The appellant timely filed the appeal pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) after receiving a decision from the Cook County Board of Review. The instant appeal challenges the assessment for tax year 2018. The Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of this appeal.

### **Findings of Fact**

The subject consists of 16 condominium units with a 100.00% total ownership interest in the common elements. The property is located in Jefferson Township, Cook County. The subject units are all classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance. No evidence was submitted as to whether any of the subject units are owner-occupied.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted a condominium analysis showing that five units in the subject's building, or 30.075% of ownership in the common elements, sold between August 2016 and December 2017 for an aggregate price of \$540,000. This analysis included five of the subject units. The appellant deducted 5.00% from the aggregate sale price to account for personal property. The aggregate sales price, less the personal property deduction, was then divided by the percentage of ownership interest in the common elements of the units sold to arrive at a total market value for the building of \$1,705,735. The appellant requested that the Board apply the 2017 Illinois Department of Revenue median level of assessment for class 2 property in Jefferson Township of 8.20% to this market value. The appellant submitted a printout from the Illinois Department of Revenue in support of this argument. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$139,870.

The board of review submitted its "Board of Review Notes on Appeal" disclosing that the total assessment for the subject is \$153,908. The subject's assessment reflects a market value of \$1,539,080 when applying the 2018 statutory level of assessment for class 2 property of 10.00% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment the board of review submitted a condominium analysis showing that five units in the subject's building, or 30.075% of ownership in the common elements, sold between August 2016 and December 2017 for an aggregate price of \$539,600. This analysis included five of the subject units. The aggregate sale price was then divided by the percentage of ownership interest in the common elements of the units sold to arrive at a total market value for the building of \$1,794,181.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal, the value of the property must be proven by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof, and a reduction in the subject's assessment is not warranted.

"Real property taxes . . . which are authorized by law to be assessed against and levied upon real property shall be assessed against and levied upon each unit and the owner's corresponding percentage of ownership in the common elements as a tract, and not upon the property as a whole." 765 ILCS 605/10(a).

The Board finds the best evidence of market value to be all of the sale comparables submitted by the parties. In taking the aggregate sales price of the most similar sales (\$540,000) and dividing by the total percentage of ownership in the common elements of the units sold (30.075%), the Board finds that the subject's building has a market value of \$1,795,511. The subject's current assessment reflects a market value below the market value established by the best comparables in this record. The Board further finds that there was no evidence submitted to show that personal property was included in any of the sale transactions, and that no deduction is warranted for this factor. Additionally, the Board finds that it is not authorized to apply an assessment level to the subject property other than the assessment level found in the Cook County Real Property Assessment Classification Ordinance. Insofar as the appellant relies upon 86 Ill.Admin.Code §1910.50(c)(2)(A), the Board finds that this rule requires annual sales ratio studies from the previous three years, and that the appellant's sales ratio evidence is only for tax year 2017. Even were the Board to consider the appellant's sales ratio evidence, the Board notes that the application of this rule is discretionary, and that the appellant's evidence was for tax year 2017 while the instant tax year is 2018. Based on this record, the Board finds the appellant has not proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
