

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dimitrios Mellos
DOCKET NO.: 18-31207.001-R-1
PARCEL NO.: 13-01-406-031-0000

The parties of record before the Property Tax Appeal Board are Dimitrios Mellos, the appellant, by attorney Spiro Zarkos, of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,696
IMPR.: \$37,407
TOTAL: \$44,103

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family building of masonry exterior construction with 3,817 square feet of building area. The building is approximately 95 years old and has a full basement finished with an apartment. The property has a 3,720 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story or three-story, class 2-11, multi-family buildings of masonry exterior construction ranging in size from 3,960 to 4,098 square feet of building area. The buildings range in age from 54 to 96 years old and have full basements, three of which are

finished with a recreational room or an apartment. One comparable has central air conditioning. Two comparables have either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$32,716 to \$34,807 or from \$8.25 to \$8.66 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$32,292 or \$8.46 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$44,103. The subject property has an improvement assessment of \$37,407 or \$9.80 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and the same block as the subject property. The comparables are improved with two-story, class 2-11, multi-family buildings of masonry exterior construction ranging in size from 3,141 to 3,522 square feet of building area. The buildings range in age from 91 to 95 years old and have full unfinished basements. The comparables have either a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$36,068 to \$39,396 or from \$11.19 to \$11.50 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #4 due to their newer ages and the board of review comparable #4 due to its smaller building size when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables. These five comparables are similar to the subject in both building size and age, except four of the comparables have an unfinished basement and a garage, unlike the subject which has a basement finished with an apartment and lacks a garage. These five comparables have improvement assessments ranging from \$33,505 to \$39,396 or from \$8.46 to \$11.50 per square foot of building area. The subject's improvement assessment of \$37,407 or \$9.80 per square foot of building area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
