

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kyung Soon Kim  
DOCKET NO.: 18-31276.001-R-1  
PARCEL NO.: 13-01-301-027-0000

The parties of record before the Property Tax Appeal Board are Kyung Soon Kim, the appellant, by attorney Ellen G. Berkshire, of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$7,980  
**IMPR.:** \$29,595  
**TOTAL:** \$37,575

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story, multi-family building of masonry exterior construction with 2,146 square feet of building area. The building is approximately 66 years old. Features include a full finished basement and central air conditioning. The property has a 4,200 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property and are either 1.2 or 1.3 miles from the subject property. The comparables are improved with class 2-11, two-story, multi-family buildings of masonry exterior construction ranging in size

from 2,189 to 2,436 square feet of building area. The buildings are 64 or 65 years old. Two comparables have either a crawl space or a concrete slab foundation, and two comparables each have a full basement with one comparable having finished area. Two comparables have either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$26,893 to \$29,079 or from \$11.94 to \$12.42 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$26,224 or \$12.22 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$37,575. The subject property has an improvement assessment of \$29,595 or \$13.79 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and a .25 of a mile from the subject property. The comparables are improved with class 2-11, two-story, multi-family buildings of masonry exterior construction ranging in size from 2,194 to 2,908 square feet of building area. The buildings range in age from 65 to 95 years old and have full unfinished basements. The comparables have a one-car garage. The comparables have improvement assessments ranging from \$33,891 to \$42,466 or from \$14.22 to \$15.45 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the evidence in the record does not support a reduction in the subject's assessment.

The Board finds neither party submitted comparables truly similar to the subject due to differences in their location, age, building size, foundation, and/or other amenities when compared to the subject. Nevertheless, these comparables have improvement assessments ranging from \$11.94 to \$15.45 per square foot of building area. The subject's improvement assessment of \$13.79 per square foot of building area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
