

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Neil Libomski  
DOCKET NO.: 18-31457.001-R-1  
PARCEL NO.: 10-33-112-003-0000

The parties of record before the Property Tax Appeal Board are Neil Libomski, the appellant, by attorney Ellen G. Berkshire, of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$8,631  
**IMPR.:** \$34,509  
**TOTAL:** \$43,140

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a multi-level dwelling of frame exterior construction with 1,466 square feet of living area. The dwelling is approximately 50 years old and has a partial basement with finished area. The property has a 6,394 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-34, multi-level dwellings of frame, masonry, or frame and masonry exterior construction ranging in size from 1,290 to 1,810 square feet of living area. The dwellings range in age from 46 or 50 years old. The comparables each have a partial

basement with finished area and a two-car garage. Two comparables each have central air conditioning, and one comparable has a fireplace. The comparables have improvement assessments ranging from \$27,875 to \$38,618 or from \$21.34 to \$12.60 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$31,446 or \$21.45 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$43,140. The subject property has an improvement assessment of \$34,509 or \$23.54 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-34, multi-level dwellings of frame exterior construction ranging from 1,402 to 1,543 square feet of living area. The dwellings range in age from 43 to 47 years old and have partial basements with finished area. One comparable has central air conditioning, and two comparables have either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$35,680 to \$39,448 or from \$24.42 to \$28.14 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2 and #3 due to their larger dwelling sizes when compared to the subject dwelling.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #4 as well as the board of review comparables which are closer in dwelling size to the subject and are also similar to the subject in location, age, and foundation. These six comparables have improvement assessments ranging from \$27,875 to \$39,448 or from \$21.34 to \$28.14 per square foot of living area. The subject's improvement assessment of \$34,509 or \$23.54 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
