

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel Lazarich
DOCKET NO.: 18-31555.001-R-1
PARCEL NO.: 10-32-415-019-0000

The parties of record before the Property Tax Appeal Board are Daniel Lazarich, the appellant, by attorney Spiro Zarkos, of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,351
IMPR.: \$49,016
TOTAL: \$58,367

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board (PTAB) finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,391 square feet of living area. The dwelling is approximately 67 years old. Features of the home include a full finished basement, central air conditioning, one fireplace, and a 2-car garage. The property has a 6,927 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on seven equity comparables located within the same neighborhood code as the subject and from .6 to 1.9 miles

from the subject property.¹ The comparables are improved with class 2-06 dwellings of masonry or frame and masonry exterior construction ranging in size from 2,234 to 2,564 square feet of living area. The dwellings range in age from 63 to 78 years old and have partial or full basements, two of which have finished area. Three comparables each have one or two fireplaces. The comparables each have central air conditioning and a 1-car, a 1.5-car, or a 2-car garage. The comparables have improvement assessments ranging from \$31,803 to \$42,086 or from \$14.24 to \$17.23 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$36,558 or \$15.29 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$58,367. The subject property has an improvement assessment of \$49,016 or \$20.50 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject property and .25 of a mile from the subject property. The comparables are improved with class 2-06, two-story dwellings of frame, masonry, or frame and masonry exterior construction ranging in size from 2,206 to 2,297 square feet of living area. The dwellings range in age from 64 to 72 years old and have partial or full basements, two of which have finished area. Three comparables each have central air conditioning, and three comparables each have a fireplace. Each comparable has a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$47,686 to \$48,605 or from \$21.16 to \$21.79 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted 11 suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 through #6 and board of review comparables #1 and #3 due to their more distant proximity to the subject property and/or unfinished basements, unlike the subject which has finished basement.

The Board finds the best evidence of assessment equity to be the appellant's comparable #7 as well as the board of review comparables #2 and #4 which are similar to the subject in location, dwelling size, age, foundation, and have finished basements, like the subject. These three

¹ The appellant submitted two sets of four comparables, but two of the comparables with parcel number 10-32-100-042-0000 are for the same property. For clarity, the Board has renumbered the second set of comparables 1 through 3 as comparables 5 through 7 that were received by PTAB on October 3, 2019.

comparables have improvement assessments ranging from \$40,019 to \$48,431 or from \$15.73 to \$21.54 per square foot of living area. The subject's improvement assessment of \$49,016 or \$20.50 per square foot of living area falls above the range on an overall basis and within the range on a per-square-foot basis. However, the subject's higher overall improvement assessment is logical considering the subject's larger dwelling size relative to the two comparables at the higher end of that range. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
