

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniel Azarone
DOCKET NO.: 18-31754.001-R-1
PARCEL NO.: 13-26-317-023-0000

The parties of record before the Property Tax Appeal Board are Daniel Azarone, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,000
IMPR.: \$30,121
TOTAL: \$36,121

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story building of masonry exterior construction with 2,368 square feet of building area. The building is approximately 108 years old. Features of the building include a partial basement with finished area and a 2.5-car garage. The property has a 3,750 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story class 2-11 buildings of frame or masonry exterior construction ranging in size from 2,272 to 2,554 square feet of building area and in age from 99

to 113 years old. Two comparables each have an unfinished full basement. Each comparable has a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$19,915 to \$22,769 or from \$8.77 to \$9.55 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$21,146 or \$8.93 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$36,121. The subject property has an improvement assessment of \$30,121 or \$12.72 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables which are located in the same neighborhood code and on the same block as the subject property. The comparables are improved with two-story class 2-11 buildings of masonry exterior construction ranging in size from 2,142 to 2,456 square feet of building area and are either 105 or 108 years old. Each comparable has an unfinished full basement and a 2-car garage. The comparables have improvement assessments ranging from \$31,620 to \$33,141 or from \$13.49 to \$14.76 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1 and #3 due to their lack of basement foundations when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' six remaining comparables which are similar to the subject in age, dwelling size and some features. These comparables have improvement assessments ranging from \$21,342 to \$33,141 or from \$8.82 to \$14.76 per square foot of building area. The subject property's improvement assessment of \$30,121 or \$12.72 per square foot of building area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
