

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dani Orlandi
DOCKET NO.: 18-31820.001-R-1
PARCEL NO.: 13-05-323-033-0000

The parties of record before the Property Tax Appeal Board are Dani Orlandi, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,952
IMPR.: \$43,538
TOTAL: \$49,490

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,257 square feet of living area. The dwelling is approximately 12 years old. Features of the property include a full basement with finished area, central air conditioning, one fireplace and a two-car garage. The property has a 3,720 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-78 dwellings of masonry or frame and masonry exterior construction that range in size from 2,085 to 2,374 square feet of living area and in age from 45

to 62 years old. Four comparables each have a full or partial basement, two of which have finished area. Four comparables have central air conditioning and three comparables each have a two-car garage. The comparables have improvement assessments ranging from \$20,660 to \$39,118 or from \$8.70 to \$17.34 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$34,577 or \$15.32 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$49,490. The subject property has an improvement assessment of \$43,538 or \$19.29 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story class 2-78 dwellings of frame or masonry exterior construction that range in size from 2,208 to 2,474 square feet of living area and in age from 12 to 15 years old. The comparables each have a full basement, two of which have finished area. Each comparable has central air conditioning and a two-car garage, and two comparables each have one fireplace. The comparables have improvement assessments ranging from \$44,992 to \$50,304 or from \$20.01 to \$21.01 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the evidence in the record does not support a reduction in the subject's assessment.

The parties submitted a total of nine comparable properties for the Board's consideration. The Board gave less weight to the appellant's comparables due to their older ages when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables which are similar to the subject in age, dwelling size and some features. These comparables have improvement assessments ranging from \$44,992 to \$50,304 or from \$20.01 to \$21.01 per square foot of living area. The subject's improvement assessment of \$43,538 or \$19.29 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to the best comparables for differences from the subject, the Board finds the record does not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
