

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Noah J Schmidt Addison Lake , LLC
DOCKET NO.: 18-31822.001-R-1
PARCEL NO.: 13-26-106-024-0000

The parties of record before the Property Tax Appeal Board are Noah J Schmidt Addison Lake, LLC, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,259
IMPR.: \$29,203
TOTAL: \$33,462

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story building of frame exterior construction with 2,704 square feet of building area. The building is approximately 109 years old. Features of the building include a concrete slab foundation and a 1.5-car garage. The property has a 2,662 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story class 2-11 buildings of frame or masonry exterior construction ranging in size from 2,417 to 2,981 square feet of building area and in age from 105

to 128 years old. Four comparables each have a full or partial basement, two of which are finished with either an apartment or finished area. One comparable has central air conditioning and four comparables each have from a 1-car to a 2-car garage. The comparables have improvement assessments ranging from \$21,577 to \$27,775 or from \$8.82 to \$9.33 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$24,336 or \$9.00 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$33,462. The subject property has an improvement assessment of \$29,203 or \$10.80 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables which are located in the same neighborhood code as the subject property. The comparables are improved with two-story class 2-11 buildings of frame exterior construction ranging in size from 2,472 to 2,587 square feet of building area and in age from 108 to 120 years old. The comparables each have a full basement, three of which are finished with an apartment or a recreation room. Each comparable has a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$28,340 to \$37,263 or from \$10.95 to \$14.65 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board finds the parties' comparables to be relatively similar to the subject in age, dwelling size and some features; however, seven comparables each have a basement foundation which is not a feature of the subject and one comparable lacks a garage which is a feature of the subject. Nevertheless, these comparables have improvement assessments ranging from \$21,577 to \$37,263 or from \$8.82 to \$14.65 per square foot of building area. The subject property's improvement assessment of \$29,203 or \$10.80 per square foot of building area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
