

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Durkin
DOCKET NO.: 18-31885.001-R-1
PARCEL NO.: 27-09-124-014-0000

The parties of record before the Property Tax Appeal Board are Paul Durkin, the appellant, by Mary Kate Gorman, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,075
IMPR.: \$21,378
TOTAL: \$27,453

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of masonry exterior construction with 1,835 square feet of living area. The dwelling is approximately 40 years old. Features of the property include a partial basement with finished area, one fireplace and a two-car garage. The property has a 12,150 square foot site and is located in Orland Park, Orland Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with one-story class 2-04 dwellings of masonry exterior construction that range in size from 2,016 to 2,364 square feet of living area and range in age from 55 to 88 years old. One comparable has central air conditioning. Two comparables each have one or two

fireplaces. The appellant's attorney did not provide descriptive information for foundation type or garages for these comparables. The comparables have improvement assessments that range from \$18,627 to \$25,425 or from \$9.00 to \$10.76 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$16,515 or \$9.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$27,453. The subject property has an improvement assessment of \$21,378 or \$11.65 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with one-story class 2-03 or class 2-04 dwellings of masonry exterior construction that range in size from 1,415 to 1,879 square feet of living area and range in age from 30 to 46 years old. One comparable has a crawl space foundation and three comparables each have an unfinished full or partial basement. Each comparable has central air conditioning and a two-car garage. Three comparables each have one fireplace. The comparables have improvement assessments that range from \$17,655 to \$25,500 or from \$11.73 to \$14.04 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables to the Board for consideration. The Board gives less weight to the appellant's comparables and the board of review comparable #3 due to their older ages, lack of a basement and/or smaller dwelling size when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review remaining comparables which are similar to the subject in age, dwelling size, foundation and features. These comparables have improvement assessments ranging from \$21,320 to \$25,500 or from \$11.73 to \$14.04 per square foot of living area. The subject's improvement assessment of \$21,378 or \$11.65 per square foot of living area falls within the range established by the best comparables in the record on an overall basis but below the range on a per square foot basis. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
