

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Yotin Brikshavana  
DOCKET NO.: 18-32053.001-R-1  
PARCEL NO.: 13-03-316-101-0000

The parties of record before the Property Tax Appeal Board are Yotin Brikshavana, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds *No Change* in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$6,400  
**IMPR.:** \$59,409  
**TOTAL:** \$65,809

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 2,969 square feet of living area. The dwelling is approximately 64 years old. Features of the home include a crawl space foundation, central air conditioning and a one-car garage. The property has a 4,000 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-06 dwellings of masonry or frame and masonry exterior construction ranging in size from 2,519 to 3,464 square feet of living area. The dwellings range

in age from 64 to 93 years old. The comparables each have a full or partial basement, one of which has finished area. Three comparables each have central air conditioning. Each comparable has one or two fireplaces and a one-car or a two-car garage. The comparables have improvement assessments that range from \$44,318 to \$64,549 or from \$17.00 to \$19.67 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$53,293 or \$17.95 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$65,809. The subject property has an improvement assessment of \$59,409 or \$20.01 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-06 dwellings of masonry exterior construction ranging in size from 2,826 to 3,136 square feet of living area and in age from 80 to 91 years old. The comparables each have a full or partial basement, three of which have finished area. Each comparable has central air conditioning and a one-car or a two-car garage. Three comparables each have two fireplaces. The comparables have improvement assessments that range from \$61,246 to \$70,768 or from \$20.26 to \$25.04 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the evidence in the record does not support a reduction in the subject's assessment.

The parties provided nine suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board finds none of the comparables are truly similar to the subject as each comparable has a basement foundation unlike the subject's crawl space foundation. Nevertheless, these comparables have improvement assessments ranging from \$44,318 to \$70,768 or from \$17.00 to \$25.04 per square foot of living area. The subject's improvement assessment of \$59,409 or \$20.01 per square foot of living area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
