

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Estate of Camelia P. Petrozzini
DOCKET NO.: 18-32070.001-R-1
PARCEL NO.: 13-23-230-002-0000

The parties of record before the Property Tax Appeal Board are Estate of Camelia P. Petrozzini, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,654
IMPR.: \$29,833
TOTAL: \$34,487

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of frame exterior construction with 2,184 square feet of building area. The building is approximately 107 years old. Features of the building include a concrete slab foundation. The property has a 2,909 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-11 multi-family buildings of frame or masonry exterior construction ranging in size from 2,156 to 2,608 square feet of building area and in age from 105 to 110 years old. One comparable lacks a basement and four comparables each have a full

basement, two of which are finished with an apartment or a recreation room. Each comparable has a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$21,136 to \$25,313 or from \$8.82 to \$9.80 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$20,507 or \$9.39 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$34,487. The subject property has an improvement assessment of \$29,833 or \$13.66 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story class 2-11 multi-family buildings of frame exterior construction that range in size from 2,052 to 2,288 square feet of building area and in age from 106 to 110 years old. One comparable has a concrete slab foundation and three comparables each have a full or partial basement, one of which is finished with a recreation room. One comparable has a 2-car garage. The comparables have improvement assessments ranging from \$32,921 to \$37,939 or from \$14.79 to \$18.08 per square foot of building area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #1, #2, #3 and #4 as well as the board of review comparables #1, #2 and #3 which have basements unlike the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #4 and the board of review comparable #4 which are similar to the subject in age, building size, foundation and features. These comparables have improvement assessments of \$25,313 and \$37,939 or \$9.78 and \$18.08 per square foot of building area, respectively. The subject's improvement assessment of \$29,833 or \$13.66 per square foot of building area is bracketed by the improvement assessments of the two best comparables in this record. After considering adjustments to the two best comparables for differences when compared to the subject, the Board finds the record does not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
