

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sean Rix
DOCKET NO.: 18-32075.001-R-1
PARCEL NO.: 09-36-227-014-0000

The parties of record before the Property Tax Appeal Board are Sean Rix, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,953
IMPR.: \$33,421
TOTAL: \$39,374

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,193 square feet of living area. The dwelling is approximately 82 years old. Features of the home include an unfinished basement, central air conditioning, one fireplace and a two-car garage. The property has a 4,410 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story class 2-05 dwellings of frame or frame and masonry exterior construction ranging in size from 1,905 to 2,195 square feet of living area and in age

from 65 to 102 years old. The comparables each have a full basement, three of which have finished area. Each comparable has central air conditioning and from a one-car to a three-car garage. The comparables have improvement assessments ranging from \$28,824 to \$35,895 or from \$13.45 to \$17.06 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$33,421 or \$15.24 per square foot of living area.

The appellant also submitted a copy of the Cook County Board of Review final decision for tax year 2018 dated April 1, 2019 disclosing the subject has a total assessment of \$55,296. The appellant reported that the subject has an improvement assessment of \$49,343 or \$22.50 per square foot of living area

The board of review submitted its "Board of Review Notes on Appeal" for a different parcel than the subject under appeal. The board of review's evidence included four equity comparables for class 2-11 dwellings instead of class 2-05 dwellings like the subject. Furthermore, these comparables were located outside the subject's neighborhood.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the board of review comparables as these properties differ in class and neighborhood when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables which are similar to the subject in location, class, design, age, dwelling size and some features. These comparables have improvement assessments ranging from \$28,824 to \$35,895 or from \$13.45 to \$17.06 per square foot of living area. The subject's improvement assessment of \$49,343 or \$22.50 per square foot of living area falls above the range established by the best comparables in this record and is excessive. After considering adjustments to the best comparables for differences to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity and commensurate with the appellant's request is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
