

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Wendy Bernier
DOCKET NO.: 18-32076.001-R-1
PARCEL NO.: 13-35-231-008-0000

The parties of record before the Property Tax Appeal Board are Wendy Bernier, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,567
IMPR.: \$25,668
TOTAL: \$30,235

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story multi-family building of frame exterior construction with 2,760 square feet of building area. The building is approximately 112 years old. Features of the building include a full basement with finished area and a 2-car garage. The property has a 3,150 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story or three-story class 2-11 multi-family buildings of frame or masonry exterior construction ranging in size from 2,756 to 2,895 square feet of

building area and in age from 105 to 125 years old. Four comparables each have a full basement, one of which has finished area. Each comparable has from a 1-car to a 2.5-car garage. The comparables have improvement assessments ranging from \$19,140 to \$22,233 or from \$6.94 to \$7.68 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$20,755 or \$7.52 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$30,235. The subject property has an improvement assessment of \$25,668 or \$9.30 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with 1.5-story class 2-11 multi-family buildings of frame exterior construction that range in size from 2,600 to 2,966 square feet of building area and in age from 115 to 125 years old. The comparables each have a full basement, three of which are finished with apartments. One comparable has central air conditioning. Three comparables each have a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$24,712 to \$35,224 or from \$9.35 to \$11.88 per square foot of building area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #2 and the board of review comparable #1 due to their lack of a basement or lack of a garage when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are similar to the subject in age, building size and other features. These comparables have improvement assessments ranging from \$19,140 to \$35,224 or from \$6.94 to \$11.88 per square foot of building area. The subject's improvement assessment of \$25,668 or \$9.30 per square foot of building area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
