

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marie Medynskyj
DOCKET NO.: 18-32078.001-R-1
PARCEL NO.: 12-11-111-024-0000

The parties of record before the Property Tax Appeal Board are Marie Medynskyj, the appellant, by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,052
IMPR.: \$63,401
TOTAL: \$70,453

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-family dwelling of masonry exterior construction with 6,570 square feet of living area. The dwelling is approximately 46 years old and has a concrete slab foundation. The property has a 5,642 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject property. Each comparable is improved with a three-story class 2-11 multi-family building of masonry exterior construction with 6,864 square feet of building area that is 41 years old. Each comparable lacks a basement. The comparables have improvement assessments ranging from \$57,226 to \$58,393

or from \$8.34 to \$8.51 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$55,319 or \$8.42 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$70,453. The subject property has an improvement assessment of \$63,401 or \$9.65 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables which are located within the same neighborhood code as the subject. The comparables are improved with three-story class 2-11 multi-family buildings of masonry exterior construction ranging in size from 4,500 to 6,570 square feet of building and in age from 45 to 48 years old. Two comparables each have a concrete slab foundation and two comparables each have an unfinished full or partial basement. The comparables have improvement assessments ranging from \$59,058 to \$70,055 or from \$10.02 to \$13.12 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gives less weight to the board of review comparables #2 and #4 due to their basement foundations when compared to the subject's concrete slab foundation.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are similar to the subject in age, building size and features. These comparables have improvement assessments ranging from \$57,226 to \$70,055 or from \$8.34 to \$11.25 per square foot of building area. The subject property's improvement assessment of \$63,401 or \$9.65 per square foot of building area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
