

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Margaret Hampleman  
DOCKET NO.: 18-32115.001-R-1  
PARCEL NO.: 13-03-304-028-0000

The parties of record before the Property Tax Appeal Board are Margaret Hampleman, the appellant, by attorney Ciarra Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$11,308  
**IMPR.:** \$35,320  
**TOTAL:** \$46,628

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 1,752 square feet of living area. The dwelling is approximately 94 years old. Features of the home include one fireplace and a 2-car garage.<sup>1</sup> The property has a 7,068 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story class 2-05 dwellings of masonry exterior construction

<sup>1</sup> The appellant did not provide descriptive information for the subject's basement. The board of review provided property characteristics for the wrong property. Therefore, the Board is unable to determine this information.

ranging in size from 1,592 to 1,789 square feet of living area and in age from 67 to 79 years old. The comparables have full or partial basements, three of which have finished area. Three comparables each have central air conditioning. Two comparables each have one fireplace. Each comparable has a 1.5-car or a 2-car garage. The comparables have improvement assessments ranging from \$28,336 to \$36,942 or from \$17.30 to \$20.74 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$35,320 or \$20.16 per square foot of living area.

The appellant also submitted a copy of the Cook County Board of Review final decision for tax year 2018 dated April 1, 2019 disclosing the subject has a total assessment of \$55,231. The appellant reported that the subject has an improvement assessment of \$43,923 or \$25.07 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" for a different parcel than the subject under appeal. The board of review's evidence included four equity comparables for class 2-03 dwellings instead of class 2-05 dwellings like the subject. Furthermore, these comparables were located outside the subject's neighborhood.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gives less weight to the board of review comparables as these properties differ in class and neighborhood when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables. These comparables are similar to the subject in location, class, design, dwelling size and some features; however, each comparable is newer than the subject. These comparables have improvement assessments ranging from \$28,336 to \$36,942 or from \$17.30 to \$20.74 per square foot of living area. The subject's improvement assessment of \$43,923 or \$25.07 per square foot of living area falls above the range established by the best comparables in this record and is excessive considering its older age. After considering adjustments to the comparables for differences to the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity and commensurate with the appellant's request is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
