

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

DOCKET NO.: 18-33557.001-R-1 through 18-33557.002-R-1

The parties of record before the Property Tax Appeal Board are 3816-20 W. North LLC, the appellant(s), by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

<b>DOCKET NO</b>	<b>PARCEL NUMBER</b>	<b>LAND</b>	<b>IMPRVMT</b>	<b>TOTAL</b>
18-33557.001-R-1	13-35-325-039-0000	3,697	28,225	\$31,922
18-33557.002-R-1	13-35-325-040-0000	3,549	27,119	\$30,668

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of two parcels of land totaling 3,318 square feet and improved with a 112-year-old, three-story, masonry, multi-family dwelling containing 6,288 square feet of building area. The property is located in Chicago, Jefferson Township, Cook County and is a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant argues overvaluation and equity as the bases of the appeal. In support of the overvaluation argument, the appellant submitted a copy of the settlement statement which disclosed that the subject property was purchased on January 27, 2016 for a price of \$400,000. The appellant's grid lists the subject as containing 3,318 square feet of building area, but the brief lists the size of the subject as 6,288 square feet. This size reflects a purchase price of \$63.61 per square foot of building area.

In support of the equity argument, the appellant submitted five comparables. The comparables are described as two or three-story, masonry or frame or frame and masonry, multi-family dwellings. They range: in age from 100 to 125 years; in size from 3,286 to 3,395 square feet of building area; and in improvement assessment from \$6.76 to \$7.59 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the assessment for one parcel. The total assessment for the subject is \$77,377 with an improvement assessment of \$70,131 or \$11.15 per square foot of building area using 6,288 square feet of building area as listed by the board of review. The total assessment reflects a market value of \$773,770 or \$123.05 per square foot of building area when using the level of assessment for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of current assessment, the board of review submitted a supplemental brief asserting that the subject property was purchased out of foreclosure as a short sale and sold to the appellant for a value that was not reflective of the market. The board of review included a printout from the recorder of deed office disclosing the quit claim deed for the subject.

In addition, the board of review included data on four sales comparables and four equity comparables. The sales comparables are described as two or three-story, masonry, multi-family dwellings. They range in age from 90 to 125 years and in size from 4,292 to 6,418 per square foot of building area. They sold from September 2016 to August 2018 for prices ranging from \$116.86 to \$149.98 per square foot of building area. The board of review lists a sale of the subject in 2018 for \$407,329 with no information regarding this sale.

The four equity comparables are described as three-story, masonry, multi-family dwellings. They range: in age from 90 to 107 years; in size from 5,860 to 6,558 square feet of building area; and in improvement assessment from \$6.27 to \$8.82 per square foot of building area.

### **Conclusion of Law**

As to the size of the subject, the Board finds the subject contains 6,288 square feet of living area as listed by the board of review and the appellant's brief.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

In addressing the appellant's market value argument, the Board finds, based on the appellant's evidence and the board of review's brief and supporting evidence, that the sale of the subject in January 2016 was a "compulsory sale." A "compulsory sale" is defined as

- (i) the sale of real estate for less than the amount owed to the mortgage lender or mortgagor, if the lender or mortgagor has agreed to the sale, commonly referred

to as a "short sale" and (ii) the first sale of real estate owned by a financial institution as a result of a judgment of foreclosure, transfer pursuant to a deed in lieu of foreclosure, or consent judgment, occurring after the foreclosure proceeding is complete.

35 ILCS 200/1-23.

Real property in Illinois must be assessed at its fair cash value, which can only be estimated absent any compulsion on either party.

Illinois law requires that all real property be valued at its fair cash value, estimated at the price it would bring at a fair voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is likewise ready, willing, and able to buy, but is not forced to do so.

Board of Educ. of Meridian Community Unit School Dist. No. 223 v. Illinois Property Tax Appeal Board, 961 N.E.2d 794, 802, 356 Ill.Dec. 405, 413 (2d Dist. 2011) (citing Chrysler Corp. v. Illinois Property Tax Appeal Board, 69 Ill.App.3d 207, 211, 387 N.E.2d 351 (2d Dist. 1979)).

However, the Illinois General Assembly recently provided very clear guidance for the Board with regards to compulsory sales. Section 16-183 of the Illinois Property Tax Code states as follows:

The Property Tax Appeal Board shall consider compulsory sales of comparable properties for the purpose of revising and correcting assessments, including those compulsory sales of comparable properties submitted by the taxpayer.

35 ILCS 200/16-183. Therefore, the Board is statutorily required to consider compulsory sales of comparable properties.

In the instant case, the Board finds that only the board of review presented four sale comparables. The Board finds these comparables similar to the subject. These comparables sold from September 2016 to August 2018 for prices ranging from \$116.86 to \$149.98 per square foot of building area. In comparison, the subject sold for \$63.61 per square foot of building area which is below the range of comparables. Therefore, the Board finds the subject's sale is not reflective of the market. In comparison, the subject's current assessment reflects a market value of \$123.05 per square foot of building area is within the range of comparables. Therefore, the Board finds the appellant has not proven by a preponderance of the evidence that the subject is overvalued and a reduction in the assessment is not justified.

The taxpayer also contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b).

The Board finds the best evidence of assessment equity to be the appellant's comparable #5 and the board of review's comparables. These comparables had improvement assessments ranging from \$7.59 to \$8.82 per square foot of building area. The remaining comparables were given less weight due to differences in design. In comparison the subject's improvement assessment of \$11.15 per square foot of building area is above the range of the best comparables in this record. Based on this record the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvements is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
