

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Series (154)0-3350 Southport Properites, LLC
DOCKET NO.: 18-33569.001-R-1
PARCEL NO.: 14-20-416-023-0000

The parties of record before the Property Tax Appeal Board are Series (154)0-3350 Southport Properites, LLC, the appellant(s), by attorney David R. Bass, of Field and Goldberg, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,840
IMPR.: \$65,160
TOTAL: \$85,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 3,100 square foot parcel of land improved with a 125-year-old, three-story, masonry, four-unit apartment building with a three-unit coach house containing a total of 6,909 square feet of building area. The property is located in Chicago, Lake View Township, Cook County and is classified as a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted an appraisal which estimated the subject's market value as of January 1, 2018 of \$850,000. The appraiser utilized the sales comparison and income approaches to value to estimate the subject's market value.

Under the income approach to value, the appraiser analyzed the rent of one and two-bedroom apartments to arrive at a potential gross income of \$127,500. Along with other income, vacancy and collection was estimated at 6% to arrive at an effective gross income of \$120,200. Expenses were deducted to arrive at a net operating income of \$79,637. The Capitalization rate of 7.25% was loaded by 2.15% to arrive at a CAP rate of 9.4% for an estimated value under the income approach of \$845,000, rounded.

Under the sales comparison approach, the appraiser analyzed four sales in arriving at the estimate of value. The sales properties were one, two, or three-bedroom unit buildings that sold from March 2016 to October 2018 for prices ranging from \$114.00 to \$161.00 per square foot of building area. After making adjustments for pertinent factors, the appraiser estimated a value for the subject under the sales comparison approach of \$890,000, rounded.

In reconciliation, the appraiser gave primary weight to the income approach to arrive at an estimated market value of \$850,000.

The board of review submitted its "Board of Review Notes on Appeal" for a different property. The subject has an assessment of \$123,617 which reflects a market value of \$1,236,170 using the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10%.

In support of the current assessment, the board of review submitted four comparables for a different property.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The subject's assessment reflects a market value above the best evidence of market value in the record. The appellant's appraiser utilized the income and sales comparison approaches to value in determining the subject's market value. The Board finds this appraisal to be persuasive because the appraisal discloses that the appraiser inspected the subject, reviewed the property's history, and used similar properties in the sales comparison approach while providing adjustments that were necessary. Therefore, the Board finds the subject property had a market value of \$850,000 as of the assessment date at issue. Since market value has been established the Cook County Real Estate Classification Ordinance level of assessment for class 2 property of 10% shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
