

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Christine Orszulak
DOCKET NO.: 18-34451.001-R-1
PARCEL NO.: 09-36-417-005-0000

The parties of record before the Property Tax Appeal Board are Christine Orszulak, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,437
IMPR.: \$56,335
TOTAL: \$64,772

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-family building of masonry exterior construction with 4,500 square feet of building area. The building is approximately 46 years old. Features of the building include a concrete slab foundation and a 2-car garage. The property has a 6,250 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 multi-family buildings of masonry exterior ranging in size from 3,514 to 3,597 square feet of building area. The buildings are either 61 or 64 years old.

Each comparable has a full basement with an apartment and a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$40,295 to \$40,762 or from \$11.20 to \$11.55 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$51,210 or \$11.38 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$64,772. The subject property has an improvement assessment of \$56,335 or \$12.52 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables which are located within the same neighborhood code as the subject property. The comparables are improved with two, two-story and two, three-story multi-family class 2-11 buildings of masonry exterior construction ranging from 3,858 or 4,452 square feet of building area. The buildings range in age from 28 to 54 years old. Three comparables have full basements with two comparables having apartments and one comparable has a concrete slab foundation. Two comparables each have central air conditioning. Two comparables have either a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$51,249 to \$55,734 or from \$12.52 to \$13.28 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did meet this burden of proof and a reduction in the subject's assessment is warranted.

The record contains seven equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables and board of review comparable #4 due to their considerably smaller building sizes and/or dissimilar ages when compared to the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables #1, #2 and #3 which overall are most similar to the subject in age and building size. These comparables have improvement assessments ranging from \$12.52 to \$13.28 per square foot of living area. The subject has an improvement assessment of \$12.52 per square foot of building area, which is at the low end of the improvement assessment per square foot range established by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement is equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
