

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jordan Kardos
DOCKET NO.: 18-34489.001-R-1
PARCEL NO.: 13-35-407-025-0000

The parties of record before the Property Tax Appeal Board are Jordan Kardos, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,416
IMPR.: \$31,405
TOTAL: \$37,821

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family building of frame exterior construction with 2,855 square feet of building area. The building is approximately 121 years old. Features of the building include a full unfinished basement and central air conditioning. The property has a 4,425 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 multi-family buildings of frame exterior ranging in size from 1,974 to 2,296 square feet of building area. The buildings are either 113 or 128 years

old. Each comparable has a full unfinished basement. Two comparables each have a two-car garage. The comparables have improvement assessments ranging from \$14,573 to \$17,053 or from \$7.20 to \$7.43 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$20,956 or \$7.34 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,753. The subject property has an improvement assessment of \$34,337 or \$12.03 per square foot of building area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables which are located within the same neighborhood code as the subject property. The comparables are improved with two-story multi-family class 2-11 buildings of frame exterior construction ranging from 2,255 to 2,506 square feet of building area. The buildings range in age from 125 to 130 years old. Three comparables have partial or full basements with one having an apartment and one comparable has a concrete slab foundation. Each comparable has a one-car to a two-car garage. The comparables have improvement assessments ranging from \$27,966 to \$32,329 or from \$12.27 to \$12.92 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration, none of which are truly similar to the subject due to differences in dwelling size and/or features. Nevertheless, the Board gave less weight to the appellant's comparable #3 due to its considerably smaller building size and board of review comparable #4 for its lack of a basement foundation when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' six remaining comparables. These comparables have improvement assessments ranging from \$7.20 to \$12.92 per square foot of living area. The subject has an improvement assessment of \$12.03 per square foot of building area, which is within the improvement assessment per square foot range established by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement is equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
