

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chris Tessier
DOCKET NO.: 18-34731.001-R-1
PARCEL NO.: 13-12-407-050-0000

The parties of record before the Property Tax Appeal Board are Chris Tessier, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,678
IMPR.: \$55,146
TOTAL: \$63,824

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story mixed-use building of masonry exterior construction with 7,878 square feet of building area. The building is approximately 113 years old. Features of the building include a full unfinished basement and a 1.5-car garage. The property has a 3,616 square foot site located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within different neighborhood codes than the subject. The comparables are improved with similar class 2-12 buildings of masonry exterior construction ranging in size from 7,421 to 7,986 square feet of building area. The buildings range in age from

87 to 92 years old and have full or partial unfinished basements. Two comparables each have central air conditioning and each comparable has from a 2-car to a 4-car garage. The comparables have improvement assessments ranging from \$34,498 to \$56,832 or from \$4.44 to \$7.12 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$43,093 or \$5.47 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$78,680. The subject property has an improvement assessment of \$70,002 or \$8.89 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-11 apartment buildings of masonry exterior construction ranging in size from 5,985 to 8,338 square feet of building area. The buildings range in age from 93 to 104 years old and have full basements with three comparables finished with apartments. One comparable has central air conditioning and one comparable has three fireplaces and a two-car garage. The comparables have improvement assessments ranging from \$72,196 to \$86,132 or from \$9.92 to \$12.39 per square foot of building area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board give less weight to the board of review comparables due to their different building classifications when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables despite their different neighborhood codes. These comparables are similar to the subject in building classification, building size and some features; however, the Board finds the comparables are superior to the subject in age. The comparables have improvement assessments ranging from \$34,498 to \$56,832 or from \$4.44 to \$7.12 per square foot of building area. The subject's improvement assessment of \$70,002 or \$8.89 per square foot of building area falls above the range established by the best comparables in this record and is excessive. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is excessive and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
