Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels improved with a 1.5-story dwelling of masonry exterior construction with 2,641 square feet of living area. The dwelling is approximately 90 years old. Features of the home include a full unfinished basement, one fireplace and a one-car garage. The two parcels have a combined 11,190 square foot site. The property is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal concerning the improvement. In support of this argument, the appellant submitted information on three equity comparables that are located in the same neighborhood code as the subject property. The comparables consist of class 2-04 dwellings of masonry exterior construction. The homes range in age from 60 to 91 years old and range in size from 2,219 to 3,528 square feet of living area.

Each comparable has a full unfinished basement, central air conditioning and a two-car garage. One comparable has one fireplace. The comparables have improvement assessments ranging from \$31,658 to \$56,380 or from \$14.19 to \$15.98 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment for Parcel #2 of \$39,113 or \$14.81 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal." The appellant's evidence disclosed the total combined assessment for the subject property to be \$56,551. The subject property has a combined improvement assessment of \$47,591 or \$18.02 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with 1.5-story class 2-04 dwellings of masonry exterior construction. The homes range in age from 67 to 93 years old and range in size from 2,311 to 2,667 square feet of living area. The comparables have full or partial basements with two comparables having finished area. Each comparable has one fireplace and either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$46,191 to \$63,259 or from \$19.22 to \$26.44 per square foot of living area. Based on the foregoing evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #3 and the board of review comparables #2 and #4 due to their newer ages, larger dwelling size and/or finished basement areas when compared to the subject. The Board finds the best evidence of assessment equity to be the parties' remaining comparables which present varying degrees of similarity to the subject in age, size and/or some features. These comparables have improvement assessments ranging from \$31,658 to \$63,259 or from \$14.19 to \$26.44 per square foot of living area. The subject's improvement assessment of \$47,591 or \$18.02 per square foot of living area falls within the range established by the best comparables in this record and is well-supported by board of review comparable #1 which is most similar to the subject. Based on this record and after considering appropriate adjustments to the best comparables for differences when compared to the subject property, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
