Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of five separate PINs with a one-story, two-building, 7,856 square foot automotive repair facility. The buildings were constructed in 1962 and 1998. The property has a 15,523 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a Class 5-93 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$335,000, or \$42.64 per square feet of building area, including land, as of January 1, 2018. The appraisal

consisted of both the income capitalization approach and sales comparison approach, with both finding the same value and the appraisal giving the equal consideration to both approaches. The appellant requested a reduction in the subject's assessment to a total of \$83,752.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$198,855. The subject's assessment reflects a market value of \$795,420 or \$101.25 per square foot of building area, including land, when applying the 25% level of assessment for class 5 properties under the Cook County Real Property Assessment Classification Ordinance. In support of its contention of the correct assessment the board of review submitted information on two unadjusted comparable sales.

The board of review and the appellant signed a waiver of hearing and agreed that the decision would be written on the evidence previously submitted.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the appraisal submitted by the appellant. The appraisal was prepared by an MAI designated appraiser and included adjustments based on his experience and expertise. The board of review's sales comparables included only unadjusted raw sales data. The subject's assessment reflects a market value of \$795,420 or \$101.25 per square foot of building area, including land, which is above the appraised value. The Board finds the subject property had a market value of \$335,000 as of the assessment date at issue. Since market value has been established, the 25% level of assessment as determined by the Cook County Real Property Classification Ordinance shall apply.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
