

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Mortenson
DOCKET NO.: 18-38544.001-R-1
PARCEL NO.: 10-07-403-017-0000

The parties of record before the Property Tax Appeal Board are Michael Mortenson, the appellant, by attorney Ellen G. Berkshire, of Verros Berkshire in Oakbrook Terrace; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,200
IMPR.: \$39,880
TOTAL: \$45,080

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 1,994 square feet of living area. The dwelling is approximately 72 years old. Features of the home include a full basement with finished area, central air conditioning, two fireplaces and a 3-car garage. The property has 10,400 square foot site and is located in Golf, Niles Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on four equity comparables located in different neighborhood code as the subject and from 2.5 to 5.2 miles from the subject. The comparables were improved with two-story class 2-05 dwellings of masonry exterior construction that range in age from 67 to 79 years old. Each comparable has central air conditioning and either a 1-car, 2-car or 2.5-car garage. Three comparables each have full unfinished basements with one comparable having a concrete-slab foundation. Three

comparables each have one fireplace. The dwellings range in size from 1,866 to 1,986 square feet of living area and have improvement assessments ranging from \$23,029 to \$28,082 or from \$12.34 to \$14.31 per square feet of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$27,378 or \$13.73 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$45,080. The subject property has an improvement assessment of \$39,880 or \$20.00 per square feet of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same neighborhood code and ¼ of a mile from the subject. The comparables were improved with two-story class 2-05 dwellings of masonry or frame and masonry exterior construction that range in age from 62 to 75 years old. Each comparable has a full basement, three of which has finished area, central air conditioning and a 2-car garage. Three comparables each have either one or two fireplaces. The dwellings range in size from 1,905 to 2,014 square feet of living area and have improvement assessments that ranged from \$51,981 to \$57,972 or from \$26.36 to \$29.15 per square feet of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables for being over 1.0 miles from the subject and for being in a different neighborhood code when compared to the subject.

The Board finds that the best evidence of assessment equity are the board of review comparables. These comparables are more similar to the subject in location, design, age and some features. These comparables have improvement assessments that range from \$51,981 to \$57,972 or from \$26.36 to \$29.15 per square foot of living area. The subject property has an improvement assessment of \$39,880 or \$20.00 per square foot of living area, which falls below the range established by the best comparables contained in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
