Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels containing a two-story dwelling of masonry exterior construction with 2,262 square feet of living area. The dwelling is approximately 60 years old. Features of the home include a concrete slab foundation, central air conditioning, one fireplace and a one-car garage. The property has a 6,125 square foot site and is located in Morton Grove, Niles Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with class 2-78 dwellings of masonry or frame and masonry exterior construction ranging in size from 2,402 to 3,111 square feet of living area and in age from 32 to 62 years old.

One comparable has a crawl space foundation and two comparables each have an unfinished full or partial basement. Each comparable has central air conditioning and a one-car or a two-car garage. Two comparables each have one fireplace. The comparables have improvement assessments ranging from \$29,376 to \$38,048 and either \$12.23 or \$12.24 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$27,664 or \$12.23 per square foot of living area.

The appellant submitted a copy of the final decision of the Cook County Board of Review dated April 22, 2019 for the 2018 assessment year concerning the two parcels which depicts assessments of \$33,484 for Parcel #1 (PIN 10-17-429-008-0000) and \$4,838 for Parcel #2 (PIN 10-17-429-043-0000). The subject's two parcels have a combined total assessment of \$38,322 and a total improvement assessment of \$33,882 or \$14.98 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" providing assessment information on only one parcel under appeal. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code as the subject property. The comparables are improved with class 2-06 or 2-78 two-story dwellings of masonry or frame and masonry exterior construction ranging in size from 2,101 to 2,380 square feet of living area and are either 62 or 67 years old. The comparables each have a full basement, two of which have finished area. Three comparables have central air conditioning, one comparable has one fireplace and three comparables have either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$32,776 to \$38,056 or from \$15.56 to \$15.99 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2 and 3 due to their newer ages and/or larger dwelling size when compared to the subject. The Board finds the best evidence of assessment equity to be the parties' five remaining comparables which are relatively similar to the subject in age, dwelling size and features. These comparables have improvement assessments ranging from \$29,376 to \$38,056 or from \$12.23 to \$15.99 per square foot of living area. The subject's improvement assessment of \$33,882 or \$14.98 per square foot of living area falls within the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
