

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Nikolay Nikolov
DOCKET NO.: 18-38940.001-R-1
PARCEL NO.: 07-23-303-018-0000

The parties of record before the Property Tax Appeal Board are Nikolay Nikolov, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,056
IMPR.: \$33,034
TOTAL: \$38,090

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 2,790 square feet of living area. The dwelling is approximately 28 years old. Features of the home include an unfinished partial basement, central air conditioning, one fireplace and a 2-car garage. The property has a 10,645 square foot site and is located in Schaumburg, Schaumburg Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with class 2-78 dwellings of frame and masonry exterior construction ranging in size from 2,197 to 2,705 square feet of living area and are either 47 or 48 years old. Each

comparable has an unfinished partial basement, central air conditioning, one fireplace and a 2-car garage. The comparables have improvement assessments ranging from \$23,837 to \$29,337 and either \$10.85 or \$11.00 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$30,411 or \$10.90 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$38,090. The subject property has an improvement assessment of \$33,034 or \$11.84 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with two-story class 2-78 dwellings of frame or frame and masonry exterior construction ranging in size from 2,130 to 2,350 square feet of living area and in age from 43 to 45 years old. The comparables each have a full or partial basement, one of which has finished area. Each comparable has central air conditioning, one fireplace and from a 1.5-car to a 3-car garage. The comparables have improvement assessments ranging from \$27,259 to \$31,189 or from \$12.43 to \$13.53 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided six suggested equity comparables to support their respective positions before the Property Tax Appeal Board. The Board finds none of the comparables are truly similar to the subject due to differences in age and/or dwelling size. Each of the comparables has an older age than the subject and five comparables are significantly smaller than the subject in size. In addition, one comparable has finished basement area unlike the subject. Nevertheless, these comparables have improvement assessments ranging from \$23,837 to \$31,189 or from \$10.85 to \$13.53 per square foot of living area. The subject's improvement assessment of \$33,034 or \$11.84 per square foot of living area falls above the range established by the comparables in this record on an overall basis but within the range on a per square foot basis. However, the subject's assessment is logical considering its newer age and larger dwelling size when compared to the comparables. After considering adjustments to the comparables for differences including age and dwelling size when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
