

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Adelaide Tilkin  
DOCKET NO.: 18-39020.001-R-1  
PARCEL NO.: 10-33-433-009-0000

The parties of record before the Property Tax Appeal Board are Adelaide Tilkin, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$12,540  
**IMPR.:** \$35,213  
**TOTAL:** \$47,753

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 2,517 square feet of living area. The dwelling is approximately 75 years old. Features of the home include a concrete slab foundation and a one-car garage. The property has a 13,200 square foot site located in Lincolnwood, Niles Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with class 2-06 dwellings of masonry exterior construction ranging in size from 3,178 to 4,988 square feet of living area and in age from 63 to 86 years old. One comparable has a crawl space foundation and two comparables each have an unfinished full

basement. Each comparable has central air conditioning, one or two fireplaces and a two-car garage. The comparables have improvement assessments ranging from \$38,559 to \$54,595 or from \$8.66 to \$12.13 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$26,630 or \$10.58 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$47,753. The subject property has an improvement assessment of \$35,213 or \$13.99 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located in the same neighborhood code and block as the subject property. The comparables are improved with class 2-06 dwellings of masonry exterior construction ranging in size from 2,418 to 2,700 square feet of living area that are either 74 or 75 years old. The comparables each have a full or partial basement, two of which have finished area. Each comparable has central air conditioning, one or two fireplaces and a two-car garage. The comparables have improvement assessments ranging from \$37,572 to \$45,241 or from \$14.43 to \$18.71 per square foot of living area. Based on the foregoing evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the evidence in the record does not support a reduction in the subject's assessment.

The parties submitted six suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to their larger dwelling sizes when compared to the subject. The Board gives more weight to the board of review comparables which are improved with dwellings most similar to the subject in age and dwelling size but superior in foundation. The board of review comparables have improvement assessments ranging from \$37,572 to \$45,241 or from \$14.43 to \$18.71 per square foot of living area. The subject's improvement assessment of \$35,213 or \$13.99 per square foot of living area falls below the range established by the comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
