Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two parcels improved with a one-story dwelling of masonry exterior construction with 2,240 square feet of living area. The dwelling is approximately 58 years old. Features of the home include an unfinished partial basement, one fireplace and a 1.5-car garage. The property has a combined 9,346 square foot site and is located in Lincolnwood, Niles Township, Cook County. The subject is classified as a class 2-04 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with class 2-04 dwellings of masonry exterior construction ranging in size from 2,229 to 2,793 square feet of living area and in age from 57 to 64 years old. The

comparables each have a full or partial basement, one of which has finished area. Each comparable has central air conditioning, one or two fireplaces and a 2-car garage. The comparables have improvement assessments ranging from \$28,077 to \$35,862 or from \$12.60 to \$12.87 per square foot of living area. Based on this evidence, the appellant requested that the subject's total improvement assessment be reduced to \$28,650 or \$12.79 per square foot of living area.

The appellant submitted a copy of the final decision of the Cook County Board of Review dated April 22, 2019 for the 2018 assessment year concerning the two parcels which depicts assessments of \$17,145 for Parcel #1 (PIN 10-27-419-018-0000) and \$24,419 for Parcel #2 (PIN 10-27-419-019-0000). The subject's two parcels have a combined total assessment of \$41,564 and a total improvement assessment of \$33,387 or \$14.90 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" providing assessment information on only one parcel under appeal. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code as the subject property. In addition, three comparables are located in the same block as the subject. The comparables are improved with one-story class 2-03, one-story class 2-04 or two-story class 2-78 dwellings of masonry or frame and masonry exterior construction ranging in size from 1,798 to 2,493 square feet of living area that are either 61 or 62 years old. The comparables each have a full or partial basement, two of which have finished area. Three comparables each have central air conditioning and each comparable has one fireplace and a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$29,615 to \$34,378 or from \$13.79 to \$16.72 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2, #3 and #4 as well as the board of review comparables #1 and #3 due to their dissimilar dwelling sizes or dissimilar two-story design when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' three remaining comparables which are relatively similar to the subject in age, dwelling size and/features. However, these comparables present differences to the subject in central air conditioning, number of fireplaces, size of garage and/or other amenities. Nevertheless, these comparables have improvement assessments ranging from \$28,077 to \$32,637 or from \$12.60 to \$14.90 per

square foot of living area. The subject's total improvement assessment of \$33,387 or \$14.90 falls above the range established by the best comparables in this record on an overall basis but matches the board of review comparable #2 on a per square foot basis. However, after considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
