

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Emiliano Caro
DOCKET NO.: 18-39036.001-R-1
PARCEL NO.: 10-33-107-035-0000

The parties of record before the Property Tax Appeal Board are Emiliano Caro, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,363
IMPR.: \$45,388
TOTAL: \$52,751

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 3,242 square feet of living area. The dwelling is approximately 33 years old. Features of the home include a full basement with finished area, central air conditioning, one fireplace and a 3-car garage. The property has an 8,415 square foot site located in Skokie, Niles Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with class 2-78 dwellings of masonry exterior construction ranging in size from 3,070 to 3,609 square feet of living area and in age from 59 to 62 years old. Each

comparable has an unfinished full basement, central air conditioning and a 2-car garage. Two comparables each have two fireplaces. The comparables have improvement assessments ranging from \$39,787 to \$46,758 and either \$12.96 or \$13.17 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$42,243 or \$13.03 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$52,751. The subject property has an improvement assessment of \$45,388 or \$14.00 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. In addition, one comparable is located in the same block as the subject. The comparables are improved with two-story class 2-78 dwellings of masonry exterior construction ranging in size from 3,234 to 3,425 square feet of living area and in age from 9 to 22 years old. The comparables each have a full or partial basement, one of which has finished area. Each comparable has central air conditioning, one or two fireplaces and a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$48,510 to \$51,235 or from \$14.33 to \$15.27 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration all of which differ in age from the subject. The Board finds the parties' comparables are similar to the subject in location, design, dwelling size and some features. These comparables have improvement assessments ranging from \$39,787 to \$51,235 or from \$12.96 to \$15.27 per square foot of living area. The subject's improvement assessment of \$45,388 or \$14.00 per square foot of living area falls within the range established by the comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
