

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Katherine Hancock
DOCKET NO.: 18-39044.001-R-1
PARCEL NO.: 10-18-121-003-0000

The parties of record before the Property Tax Appeal Board are Katherine Hancock, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,853
IMPR.: \$36,981
TOTAL: \$41,834

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,808 square feet of living area. The dwelling is approximately 62 years old. Features of the property include an unfinished partial basement, central air conditioning and a 2-car garage. The property has a 6,695 square foot site and is located in Morton Grove, Niles Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables that are located in the same neighborhood code as the subject property. The comparables are improved with class 2-78 dwellings of frame and masonry exterior construction that range in size from 2,915 to 3,600 square feet of living area that are either 49 or 51 years old.

The comparables each have a full or partial basement, two of which have finished area. Each comparable has central air conditioning and a 2-car or a 2.5-car garage, and two comparables each have one fireplace. The comparables have improvement assessments that range from \$33,610 to \$45,624 and either \$11.53 or \$12.67 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$34,510 or \$12.29 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$41,834. The subject property has an improvement assessment of \$36,981 or \$13.17 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located in the same neighborhood code as the subject. The comparables are improved with two-story class 2-06 or class 2-78 dwellings of masonry or frame and masonry exterior construction that range in size from 2,125 to 3,221 square feet of living area and in age from 13 to 64 years old. One comparable has a concrete slab foundation and three comparables each have a full or partial basement, one of which has finished area. The comparables have improvement assessments that range from \$31,388 to \$46,060 or from \$14.30 to \$15.27 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables to the Board for consideration. The Board finds that the appellant's comparable #1 is the only comparable truly similar to the subject in both age and dwelling size, although it has finished basement area and a fireplace unlike the subject. The other six comparables are similar in location and design but differ from the subject in age, dwelling size, foundation and/or some features. Nevertheless, the comparables have improvement assessments ranging from \$31,388 to \$46,060 or from \$11.53 to \$15.27 per square foot of living area. The subject's improvement assessment of \$36,981 or \$13.17 per square foot of living area falls within the range established by the comparables in the record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
