

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Suad Paratusic
DOCKET NO.: 18-39061.001-R-1
PARCEL NO.: 10-34-108-021-0000

The parties of record before the Property Tax Appeal Board are Suad Paratusic, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,757
IMPR.: \$26,115
TOTAL: \$31,872

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of masonry exterior construction with 1,556 square feet of living area. The dwelling is approximately 61 years old. Features of the home include a partial basement with finished area, central air conditioning, one fireplace and a 1.5-car garage. The property has a 6,580 square foot site and is located in Lincolnwood, Niles Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with multi-level class 2-34 dwellings of masonry exterior construction that range in size from 1,592 to 3,296 and in age from 51 to 61 years old. Each

comparable has a partial basement with finished area, central air conditioning and a 2-car garage. One comparable has one fireplace. The comparables have improvement assessments ranging from \$16,240 to \$47,676 or from \$10.20 to \$14.60 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$20,897 or \$13.43 per square foot.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$31,872. The subject property has an improvement assessment of \$26,115 or \$16.78 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and in the same block as the subject. The comparables are improved with multi-level class 2-34 dwellings of masonry exterior construction that range in size from 1,184 to 1,849 square feet of living area and are either 56 or 61 years old. Each comparable has a partial basement with finished area, central air conditioning and one fireplace. Three comparables have either a 1-car or a 2-car garage. The comparables have improvement assessments ranging from \$22,227 to \$31,061 or from \$16.50 to \$26.23 per square foot of living area. Based on this evidence, the board of review requested the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables to the Board for consideration. The Board finds that the board of review comparable #2 is the only comparable truly similar to the subject in age, dwelling size, foundation and features. The other comparables in the record each differ from the subject in dwelling size and/or other features and one of these comparables lacks a garage, which is a feature of the subject. However, the Board gives less weight to the appellant's comparable #1 which is an outlier with its significantly lower improvement assessment on both overall and per square foot bases than the other comparables in the record. Nevertheless, the seven remaining comparables have improvement assessments ranging from \$22,277 to \$47,676 or from \$14.46 to \$26.23 per square foot of living area. The subject's improvement assessment of \$26,115 or \$16.78 per square foot of living area falls within the range established by the seven remaining comparables in the record. Based on the evidence in this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
