

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ron Plonis
DOCKET NO.: 18-39947.001-R-1
PARCEL NO.: 31-26-408-005-0000

The parties of record before the Property Tax Appeal Board are Ron Plonis, the appellant, by attorney Peter D. Verros, of Verros Berkshire, PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,160
IMPR.: \$4,854
TOTAL: \$7,014

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame and masonry exterior construction with 1,471 square feet of living area. The dwelling is approximately 62 years old. Features of the home include a concrete slab foundation, a fireplace, and a one-car garage. The property has a 7,200 square foot site and is located in Park Forest, Rich Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables that have the same assessment neighborhood code as the subject and are located over one mile from the subject. The comparables are improved with one-story, class 2-03 dwellings of frame and masonry exterior construction that range in size from 1,394 to 1,694 square feet of living

area and range in age from 63 to 66 years old. The comparables have concrete slab foundations, three comparables have central air conditioning, two comparables each have a fireplace, and three comparables each have a one-car to a two-car garage. The comparables have improvement assessments ranging from \$2,936 to \$3,480 or from \$1.97 to \$2.33 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$3,089 or \$2.10 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$7,014. The subject has an improvement assessment of \$4,854 or \$3.30 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same assessment neighborhood code and block as the subject. The comparables are improved with 1.5-story, class 2-03 dwellings of frame and masonry exterior construction ranging in size from 1,318 to 1,400 square feet of living area and are 62 years old. The comparables have concrete slab foundations, one comparable has central air conditioning, and each comparable has a one-car or a two-car garage. The comparables have improvement assessments ranging from \$4,448 to \$5,521 or from \$3.37 to \$3.94 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject. The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains eight equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their distant locations being over 1 mile from the subject. Furthermore, all are one-story dwellings in contrast to the subject's 1.5-story dwelling.

The Board finds the best evidence of assessment equity to be the board of review comparables which overall are most similar to the subject in location, age, design, dwelling size, and features. These comparables have improvement assessments ranging from \$4,448 to \$5,521 or from \$3.37 to \$3.94 per square foot of living area. The subject has an improvement assessment of \$4,854 or \$3.30 per square foot of living area, which falls within the range on overall basis established by the best comparables in this record but below the range on a per square foot basis. The lower assessment per square foot is logical due to subject's larger dwelling size. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is equitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
