

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Derong Liu
DOCKET NO.: 18-43671.001-R-1
PARCEL NO.: 17-20-233-075-0000

The parties of record before the Property Tax Appeal Board are Derong Liu, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,485
IMPR.: \$45,509
TOTAL: \$48,994

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story townhome of masonry exterior construction with 1,746 square feet of living area. The home is approximately 16 years old. Features of the home include a concrete slab foundation, central air conditioning, one fireplace and a two-car garage. The property has a 1,025 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located in the same neighborhood code as the subject. The comparables are improved with class 2-95 townhomes of masonry exterior construction that range in size from 1,302 to 1,618 square feet of living area and are either 44 or 51 years old. Each comparable has

a concrete slab foundation and central air conditioning. The comparables have improvement assessments ranging from \$31,136 to \$37,798 or from \$21.71 to \$23.91 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$40,158 or \$23.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$48,994. The subject property has an improvement assessment of \$45,509 or \$26.06 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located in the same neighborhood code and in the same block as the subject. In addition, two of these comparables are located along the same street as the subject. The comparables are improved with three-story class 2-95 townhomes of masonry exterior construction with either 1,722 or 1,746 square feet of living area and that are each 16 years old. Each comparable has a concrete slab foundation, central air conditioning, one fireplace and a two-car garage. The comparables have improvement assessments ranging from \$45,629 to \$48,281 or from \$26.13 to \$28.04 per square foot of living area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven suggested comparables for the Board's consideration. The Board gives less weight to the appellant's comparables due to their older ages and/or smaller dwelling sizes when compared to the subject. Furthermore, these comparables each lack a garage which is a feature of the subject.

The Board finds the best evidence of assessment equity to be the board of review comparables which are identical or nearly identical to the subject in age, dwelling size and features. These comparables have improvement assessments ranging from \$45,629 to \$48,281 or from \$26.13 to \$28.04 per square foot of living area. The subject's improvement assessment of \$45,509 or \$26.06 per square foot of living area falls below the range established by the best comparables in the record. After considering adjustments to the best comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
