

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Bradley Bakle
DOCKET NO.: 18-43683.001-R-1
PARCEL NO.: 16-01-204-011-0000

The parties of record before the Property Tax Appeal Board are Bradley Bakle, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,007
IMPR.: \$26,532
TOTAL: \$34,539

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of frame exterior construction with 2,068 square feet of living area. The dwelling is approximately 130 years old. Features of the property include a concrete slab foundation. The property has a 3,140 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with class 2-11 multi-family dwellings of frame exterior construction that range in size from 2,200 to 2,826 square feet of living area and in age from 105 to 120 years old. Each comparable has a concrete slab foundation. The comparables have improvement

assessments ranging from \$27,419 to \$36,321 or from \$12.46 to \$13.12 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$26,532 or \$12.83 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$42,616. The subject property has an improvement assessment of \$34,609 or \$16.74 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story class 2-11 multi-family dwellings of frame exterior construction that range in size from 1,559 to 1,844 square feet of living area and in size from 120 to 138 years old. Each comparable has a concrete slab foundation and a one-car or a two-car garage. The comparables have improvement assessments ranging from \$30,802 to \$34,204 or from \$17.94 to \$19.76 per square foot of living area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board gives less weight to the board of review comparables which each have a garage unlike the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables which are similar to the subject in age and features as well as lacking a garage like the subject. However, three of these comparables are significantly larger in dwelling size than the subject. These comparables have improvement assessments ranging from \$27,419 to \$36,321 or from \$12.46 to \$13.12 per square foot of living area. The subject property's improvement assessment of \$34,609 or \$16.74 per square foot of living area falls within the range established by the comparables in the record on an overall basis but above the range on a per square foot basis. However, after considering adjustments to the best comparables for differences from the subject, the Board finds the appellant demonstrated with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity and commensurate with the subject's request is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
