

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Susan Huff
DOCKET NO.: 18-49116.001-R-1
PARCEL NO.: 14-30-116-068-0000

The parties of record before the Property Tax Appeal Board are Susan Huff, the appellant(s), by attorney Noah J. Schmidt, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,727
IMPR.: \$55,734
TOTAL: \$59,461

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2018 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story dwelling of masonry construction with 3,055 square feet of living area. The dwelling was constructed in 2003. Features of the home include a slab foundation, central air conditioning, and a 2-car garage. The property has an 1,308 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant indicated that their appeal was based on assessment equity and a contention of law, however, no legal argument was submitted. Instead, the appellant submitted a sales analysis indicating the subject was overvalued. In support of this argument the appellant submitted information on 25 comparable sales plus information on the subject unit. The comparable

properties sold between January 2015 and August 2018. The comparable properties ranged: in price between \$365,000 to \$612,000; in living square footage between 1,470 to 2,483; and in sale price per square foot between \$218.96 to \$278.69, including land. In addition, the appellant included a chart listing an allocated sale price for each comparable based on the average price per square foot of all recent sales in the subject's townhome development. A 5% personal property deduction was applied to the unit's allocated sales price to arrive at a sale price much lower than the subject's actual sale price. The appellant then applied a 7.85% median level of assessment factor to arrive at a requested assessment for the subject of \$23,704. The appellant did not provide any equity evidence.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$55,734. The subject's assessment reflects a market value of \$557,340 or \$182.44 per square foot of living area, including land, when applying the level of assessment for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables, two of which reflected sales data. One of the comparables is located on the subject's block. The improvement assessments range from \$17.57 to \$18.12 per square foot of living area. The sales occurred in May 2017 and December 2018 for \$390,000 or \$385,000 or \$221.34 and \$188.91 per square foot of living area, including land, respectively. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

In determining the fair market value of the subject property, the Board finds the best evidence to be the sale comparables offered by the appellant. The Board give most weight to the appellant's sales comparables as all sale comparables are located within the subject's homeowners' association. They sold between January 2015 and August 2018 for prices ranging from \$218.96 to \$278.69, including land. The subject's assessment represents a market value of \$182.44 per square foot, including land, is *below* the range set forth by these comparables. Based on this evidence the Board finds a reduction in the subject's assessment *is not* justified.

Furthermore, the Board gives no weight to the appellant's deduction of 5% for personal property, as there was no evidence submitted to show that personal property was included in any of the sale transactions, and that no deduction is warranted for this factor. Additionally, the Board gives no weight to the appellant's level of assessment argument as the appellant submitted incorrect and unsupported data. As the subject is an individually owned property, The Board accords no weight to the appellant's argument and analysis utilizing the "allocated sales price." The appellant provided no statute or caselaw which would allow the Board to determine that such an analysis should be utilized.

The taxpayer's petition listed assessment inequity as the basis of the appeal but did not submit any equity data. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant *did not meet* this burden of proof and a reduction in the subject's assessment *is not* warranted.

As to the equity of the subject's assessment, the appellant's comparables along with the board of review's comparables are the most similar to the subject for equity comparison. However, only the board of review submitted assessment data on one of these comparables. The Board finds the comparable is insufficient to determine if the subject is equitably assessed and finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvements *is not* justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
