

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Casimir Borowski
DOCKET NO.: 18-49565.001-R-1
PARCEL NO.: 18-35-403-011-0000

The parties of record before the Property Tax Appeal Board are Casimir Borowski, the appellant(s), by attorney John W. Zapala, of the Law Offices of John Zapala, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 3,982
IMPR.: \$ 33,671
TOTAL: \$ 37,653

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal pursuant to section 16-185 of the Property Tax Code (35 ILCS 200/16-185) after receiving a favorable decision from the Property Tax Appeal Board (the "Board") in the prior year. The instant appeal challenges the assessment for tax year 2018. The Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Findings of Fact

The subject consists of a three-story dwelling of masonry construction with 4,050 square feet of living area. The dwelling is 45 years old. Features of the home include a crawl. The property's site is 10,621 square feet, and it is located in Lyons Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables.

The appellant also contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five sale comparables. These sale comparables sold between August 2015 and September 2016 for \$185,000 to \$442,500, or \$68.78 to \$90.36 per

square foot of living area, including land. The appellant also submitted an attorney-prepared income approach estimating that the subject's market value is \$91,513. In Section II of the appeal form, the appellant stated that the subject is not owner-occupied. Based on this evidence, the appellant requested a reduction in the subject's assessment to \$33,000.

The board of review submitted its "Board of Review Notes on Appeal" disclosing that the total assessment for the subject is \$37,653. The subject property has an improvement assessment of \$33,671, or \$8.31 per square foot of living area. The subject's assessment reflects a market value of \$376,530, or \$92.97 per square foot of living area, including land, when applying the 2018 statutory level of assessment for class 2 property of 10.00% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment, the board of review submitted information on eight equity comparables, and four sale comparables. These sale comparables sold from November 2017 to December 2019 for \$400,000 to \$542,000, or \$104.17 to \$133.83 per square foot of living area, including land.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal, the value of the property must be proven by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales, or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof, and a reduction in the subject's assessment is not warranted.

The appellant submitted documentation showing the income and expenses of the subject property. The Board gives the appellant's argument no weight. In Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970), the Illinois Supreme Court stated:

[I]t is clearly the value of the "tract or lot of real property" which is assessed, rather than the value of the interest presently held. . . [R]ental income may of course be a relevant factor. However, it cannot be the controlling factor, particularly where it is admittedly misleading as to the fair cash value of the property involved. . . [E]arning capacity is properly regarded as the most significant element in arriving at "fair cash value." Many factors may prevent a property owner from realizing an income from property that accurately reflects its true earning capacity; but it is the capacity for earning income, rather than the income actually derived, which reflects "fair cash value" for taxation purposes.

Id. at 431.

As the Court stated, actual income and expenses can be useful when shown that they are reflective of the market. Although the appellant made this argument, the appellant did not demonstrate, through an expert in real estate valuation, that the subject's actual income and expenses are reflective of the market. To demonstrate or estimate the subject's market value

using income and expenses, one must establish, through the use of market data, the market rent, vacancy and collection losses, and expenses to arrive at a net operating income reflective of the market and the property's capacity for earning income. The appellant did not provide such evidence and, therefore, the Board gives this argument no weight. Thus, the Board finds that the appellant has not proven, by a preponderance of the evidence, that the subject is overvalued, and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of market value to be appellant's sale comparable #2, and all of the board of review's sale comparables. These sale comparables sold for prices ranging from \$77.71 to \$133.83 per square foot of living area, including land. The subject's assessment reflects a market value of \$92.97 per square foot of living area, including land, which is within the range established by the best comparables in this record. Based on this record, the Board finds the appellant has not proven, by a preponderance of the evidence, that the subject is overvalued, and that a reduction in the subject's assessment is not warranted.

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proven by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof, and that a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be board of review equity comparables #1, #2, #3, #4, and #6. These equity comparables had improvement assessments ranging from \$6.68 to \$8.37 per square foot of living area. The subject's improvement assessment of \$8.31 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant has not proven, with clear and convincing evidence, that the subject is inequitably assessed, and that a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
