

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Heather Kladis
DOCKET NO.: 19-00418.001-R-1
PARCEL NO.: 11-04-13-209-018-0000

The parties of record before the Property Tax Appeal Board are Heather Kladis, the appellant, by attorney Kristin Kladis, of Kladis Law, PC in Chicago; and the Will County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the Will County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$19,627
IMPR.: \$39,892
TOTAL: \$59,519

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Will County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame construction containing 1,014 square feet of living area. The dwelling was constructed in 1960. Features of the home include a full basement and a 440 square foot garage. The property is located in Lockport, Lockport Township, Will County.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject. The comparables are one-story dwellings of frame construction that range in size from 988 to 1,308 square feet of living area. The homes were built in either 1960 or 1961. Two comparables have full basements and each comparable has either a 440 or a 616 square foot garage. The comparables have improvement assessments ranging from \$33,539 to \$47,687 or from \$32.58 to \$36.46 per square foot of living area.

Based on this evidence the appellant requested that the subject's total assessment be reduced to \$55,117.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$59,519. The subject property has an improvement assessment of \$39,892 or \$39.34 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are one-story dwellings of frame construction that contain either 988 or 1,014 square feet of living area. The homes were built between 1960 and 1975. Each comparable has a full basement and a garage ranging in size from 528 to 624 square feet of building area. Comparable #2 also has central air conditioning. The comparables have improvement assessments ranging from \$39,197 to \$41,322 or from \$39.67 to \$41.82 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables due to their larger size or lack of a basement foundation, when compared to the subject. The Board also gives less weight to the board of review's comparable #2 due to its newer age and its superior features, including central air conditioning, when compared to the subject. The Board finds the board of review's remaining comparables are more similar to the subject in location, style, age, size and features. These comparables have improvement assessments ranging from \$39,197 to \$41,322 or from \$39.67 to \$41.82 per square foot of living area. The subject's improvement assessment of \$39,892 or \$39.34 per square foot of living area falls within the range established by the best comparables in the record on a total improvement assessment basis and below the range on a per square foot basis. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
