

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rob Hattar
DOCKET NO.: 19-00512.001-R-1
PARCEL NO.: 16-05-02-304-072-0000

The parties of record before the Property Tax Appeal Board are Rob Hattar, the appellant; and the Will County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the Will County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$22,855
IMPR.: \$89,691
TOTAL: \$112,546

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Will County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling with brick exterior construction containing 2,332 square feet of living area. The dwelling was constructed in 1974. Features of the home include a full 2,332 square foot basement, central air conditioning, a fireplace and an 859 square foot garage.¹ The property has a 17,086 square foot site and is located in Homer Glen, Homer Township, Will County.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are one-story dwellings with brick or brick and siding exterior construction that range in size from 2,098 to 2,757 square feet of living area. The homes were built in either 1974

¹ The board of review reports the subject has an unfinished basement; however, the Board finds the appellant failed to disclose whether the subject has finished basement area in Section III-Description of Property on the appeal form.

or 1980. The comparables have partial basements ranging in size from 889 to 1,320 square feet of building area, central air conditioning, a fireplace and garages ranging in size from 504 to 779 square feet of building area. The comparables have improvement assessments ranging from \$74,522 to \$90,615 or from \$32.87 to \$35.66 per square foot of living area.

Based on this evidence the appellant requested that the subject's total assessment be reduced to \$103,513.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$112,546. The subject property has an improvement assessment of \$89,691 or \$38.46 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject. The comparables are one-story dwellings with brick or brick and stone exterior construction that range in size from 2,096 to 2,373 square feet of living area. The homes were built between 1970 and 1981. The comparables have full basements ranging in size from 2,096 to 2,373 square feet of building area, central air conditioning, a fireplace and garages ranging in size from 519 to 604 square feet of building area. The comparables have improvement assessments ranging from \$80,553 to \$94,444 or from \$37.50 to \$39.80 per square foot of living area.

Based on this evidence the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends improvement assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board gives less weight to the appellant's comparables due to their smaller basements and garages, when compared to the subject. The Board finds the board of review's comparables are more similar to the subject in location, style, age size and features. These comparables have improvement assessments ranging from \$80,553 to \$94,444 or from \$37.50 to \$39.80 per square foot of living area. The subject's improvement assessment of \$89,691 or \$38.46 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is justified. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement is inequitably assessed and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
