

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Zinoviia Kchisko
DOCKET NO.: 19-03785.001-R-1
PARCEL NO.: 15-36-101-008

The parties of record before the Property Tax Appeal Board are Zinoviia Kchisko, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$125,949
IMPR.: \$208,106
TOTAL: \$334,055

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of brick exterior construction with 5,369 square feet of living area. The dwelling was constructed in 1964 but has a reported effective age of 1974. Features of the home include a partial basement that is unfinished, central air conditioning, four fireplaces and a 679 square foot garage.¹ The property also has a 774 square foot inground swimming pool and a 128 square foot metal utility shed. The property has a 151,530 square foot site and is located in Riverwoods, Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four equity

comparables located within the same assessment neighborhood code as the subject property. The comparables are improved with one-story dwellings of brick or wood siding exterior construction ranging in size from 4,680 to 4,859 square feet of living area. The dwellings were built from 1958 to 1974. The appellant reported that one comparable has a partial basement and two comparables have either a concrete slab or a crawl space foundation. Each comparable has central air conditioning, one to four fireplaces and a garage that ranges in size from 460 to 1,406 square feet of building area. The comparables have improvement assessments that range from \$163,461 to \$174,067 or from \$33.67 to \$36.38 per square foot of living area. Based on this evidence, the appellant requested the subject's improvement assessment be reduced to \$188,451 or \$35.10 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$334,055. The subject property has an improvement assessment of \$208,106 or \$38.76 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on five equity comparables located within the same assessment neighborhood code as the subject property. The comparables are improved with one-story dwellings of brick or wood siding exterior construction ranging in size from 5,110 to 6,018 square feet of living area. The dwellings were built from 1955 to 1979. Board of review comparables #1 through #4 have reported effective ages of 1975, 1989, 1986 and 1971, respectively. The board of review reported that one comparable has a full unfinished basement and four comparables have either a crawl space or a concrete slab foundation. Each comparable has central air conditioning, one to three fireplaces and a garage that ranges in size from 629 to 1,591 square feet of building area. One comparable has a hot tub and one comparable has both an inground swimming pool and a metal utility shed. The comparables have improvement assessments that range from \$124,180 to \$263,025 or from \$20.63 to \$49.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains a total of nine suggested equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables #2, #3 and #4, as well as board of review comparables #4 and #5 due to their dissimilar dwelling sizes when compared to the subject. The Board finds the best evidence of assessment equity to be the parties' remaining comparables, which are relatively similar to the subject in location, dwelling size and design. However, the Board finds that three of the comparables have inferior concrete slab or crawl space foundations when compared to the subject's basement foundation, two comparables have newer effective ages than the subject dwelling, two comparables have larger garages than the

subject and none of the comparables have an inground swimming pool like the subject. Nevertheless, these comparables have improvement assessments that range from \$163,580 to \$263,025 or from \$33.67 to \$49.85 per square foot of living area. The subject's improvement assessment of \$208,106 or \$38.76 per square foot of living area falls within the range established by the best comparables in the record. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
