

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Charles Weadley  
DOCKET NO.: 19-03841.001-R-1  
PARCEL NO.: 05-03-300-207

The parties of record before the Property Tax Appeal Board are Charles Weadley, the appellant; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 3,791  
**IMPR.:** \$42,343  
**TOTAL:** \$46,134

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story condominium unit of wood siding exterior construction that has 1,548 square feet of living area. The dwelling was built in 1979. Features include a concrete slab foundation, central air conditioning, a fireplace and a 363 square foot garage. The subject property is located in Grant Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not challenged. In support of the inequity claim, the appellant submitted a grid analysis of three assessment comparables located in close proximity to the subject. The comparables consist of two-story condominium units that were reported to be 32 years old. Features include central air conditioning, a fireplace and a garage with 363 square feet of building area. The dwellings contain 1,548 square feet of living area and have improvement assessments ranging from \$34,283 to \$42,761 or from \$22.15 to \$27.62 per square foot of living

area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's final assessment of \$46,134. The subject property has an improvement assessment of \$42,343 or \$27.35 per square foot of living area. In support of the subject's assessment, the board of review submitted five assessment comparables located in close proximity to the subject. Comparable #2 was also used by the appellant. The comparables consist of two-story<sup>1</sup> condominium units of wood siding exterior construction that were built in 1979. The comparables have a concrete slab foundation, central air conditioning, a fireplace and a garage that contain 363 square feet of building area. The dwellings contain 1,548 square feet of living area and have improvement assessments ranging from \$42,494 to \$42,761 or from \$27.45 to \$27.62 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer argued assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof.

The record contains seven assessment comparables for the Board's consideration. The Board finds both parties comparables are similar if not identical when compared to the subject in location, design, age, dwelling size and features. These comparables have improvement assessments ranging from \$34,283 to \$42,761 or from \$22.15 to \$27.62 per square foot of living area. The subject property has an improvement assessment of \$42,343 or \$27.35 per square foot of living area, which falls within the range established by the most similar assessment comparables contained in this record. Based on this evidence, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's improvement assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence.

<sup>1</sup> After a review of the subject's Property Record Card and grid analysis, the board of review misidentified the story height of the subject and comparables.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
