

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Yehuda Schwartz
DOCKET NO.: 19-03878.001-R-1
PARCEL NO.: 16-29-415-006

The parties of record before the Property Tax Appeal Board are Yehuda Schwartz, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$42,760
IMPR.: \$109,758
TOTAL: \$152,518

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick and wood siding exterior construction with 2,080 square feet of living area. The dwelling was built in 1966 or is approximately 53 years old. Features of the home include a concrete slab foundation, central air conditioning, a fireplace and a 460 square foot garage. The property has an 8,601 square foot site and is located in Deerfield, West Deerfield Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same neighborhood code as the subject. The comparables are described as two, 1.8-story and two, 2-story dwellings of wood siding exterior construction ranging in size from 1,488 to 2,378 square feet of living area. The dwellings range in age from 62 to 65 years old. The comparables have concrete slab foundations; five comparables have

central air conditioning; three comparables each have a fireplace; and each comparable has a garage ranging in size from 253 to 495 square feet of building area. The comparables have improvement assessments ranging from \$66,275 to \$105,599 or from \$38.89 to \$47.71 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$152,518. The subject property has an improvement assessment of \$109,758 or \$52.77 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on five equity comparables located within the same neighborhood code as the subject. The comparables are described as two-story dwellings of wood siding or brick and wood siding exterior construction ranging in size from 2,000 to 2,102 square feet of living area. The dwellings were constructed from 1963 to 1969. Each comparable has a concrete slab foundation, central air conditioning, and a garage ranging in size from 400 to 525 square feet of building area. Four comparables each have one fireplace. The comparables have improvement assessments ranging from \$99,801 to \$117,262 or from \$49.90 to \$55.79 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted ten equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1, #2, #3 and #4 due to their differences in dwelling size or having a smaller garage when compared to the subject.

The Board finds the best evidence of assessment equity to be appellant's comparable #5 along with the board of review comparables which overall are more similar to the subject in location, age, dwelling size and most features. These comparables have improvement assessments ranging from \$99,801 to \$117,262 or from \$47.71 to \$55.79 per square foot of living area. The subject's improvement assessment of \$109,758 or \$52.77 per square foot of living area falls within the range established by the best comparables in the record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not prove by clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's improvement assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
